Forecasted GAAP Earnings Reconciliation

Wabtec is not presenting a quantitative reconciliation of our forecasted GAAP earnings per diluted share to forecasted adjusted earnings per diluted share because it is unable to predict with reasonable certainty and without unreasonable effort the impact and timing of restructuring-related and other charges, including acquisition-related expenses and the outcome of certain regulatory, legal and tax matters. The financial impact of these items is uncertain and is dependent on various factors, including timing, and could be material to our Consolidated Statements of Earnings.

Information about non-GAAP Financial Information and Forward-Looking Statements

Wabtec's earnings release and 2026 financial guidance mentions certain non-GAAP financial performance measures, including adjusted gross profit, adjusted operating expenses, adjusted operating margin, adjusted gross margin, EBITDA, adjusted EBITDA, adjusted income tax expense, adjusted income from operations, adjusted interest and other expense, adjusted net income, adjusted earnings per diluted share and operating cash flow conversion. Wabtec defines EBITDA as earnings before interest, taxes, depreciation and amortization. Adjusted EBITDA is further adjusted by restructuring costs. Wabtec defines operating cash flow conversion as net cash provided by operating activities divided by net income plus depreciation and amortization including deferred debt cost amortization. While Wabtec believes these are useful supplemental measures for investors, they are not presented in accordance with GAAP. Investors should not consider non-GAAP measures in isolation or as a substitute for net income, cash flows from operations, or any other items calculated in accordance with GAAP. In addition, the non-GAAP financial measures included in this release have inherent material limitations as performance measures because they add back certain expenses incurred by the Company to GAAP financial measures, resulting in those expenses not being taken into account in the applicable non-GAAP financial measure. Because not all companies use identical calculations, Wabtec's presentation of non-GAAP financial measures may not be comparable to other similarly titled measures of other companies. Included in this release are reconciliation tables that provide details about how adjusted results relate to GAAP results.

This communication contains "forward-looking" statements as that term is defined in Section 27A of the Securities Act of 1933, and Section 21E of the

Securities Exchange Act of 1934, as amended by the Private Securities Litigation Reform Act of 1995. All statements, other than historical facts, including statements regarding Wabtec's plans, objectives, expectations and intentions; Wabtec's expectations about future sales, earnings and cash conversion; and any assumptions underlying any of the foregoing, are forward-looking statements. Forward-looking statements concern future circumstances and results and other statements that are not historical facts and are sometimes identified by the words "may," "will," "should," "potential," "intend," "expect," "endeavor," "seek," "anticipate," "estimate," "overestimate," "underestimate," "believe," "could," "project," "predict," "continue," "target" or other similar words or expressions. Forward-looking statements are based upon current plans, estimates and expectations that are subject to risks, uncertainties and assumptions. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those indicated or anticipated by such forward-looking statements. The inclusion of such statements should not be regarded as a representation that such plans, estimates or expectations will be achieved. Important factors that could cause actual results to differ materially from such plans, estimates or expectations include, among others, (1) changes in general economic and/or industry specific conditions, including the impacts of significant recent shifts in trade policies (including the actual or threatened imposition of tariffs and retaliatory tariff measures) as well as tax programs, inflation, supply chain disruptions, foreign currency exchange and industry consolidation and market reactions to these factors; (2) changes in the financial condition or operating strategies of Wabtec's customers; (3) unexpected costs, charges or expenses resulting from acquisitions and potential failure to realize synergies and other anticipated benefits of acquisitions, including as a result of integrating acquired targets into Wabtec; (4) inability to retain and hire key personnel; (5) evolving legal, regulatory and tax regimes; (6) changes in the expected timing of projects; (7) a decrease in freight or passenger rail traffic; (8) an increase in manufacturing costs; (9) actions by third parties, including government agencies; (10) the impacts of epidemics, pandemics or similar public health crises on the global economy and, in particular, our customers, suppliers and end-markets, (11) potential disruptions, instability and volatility in global markets as a result of global military action, acts of terrorism or armed conflict, including Russia's invasion of Ukraine and ongoing military conflicts in the Middle East; (12) cybersecurity and data protection risks and (13) other risk factors as detailed from time to time in Wabtec's reports filed with the SEC, including Wabtec's annual report on Form 10-K, periodic quarterly reports on Form 10-Q, current reports on Form 8-K and other documents filed with the SEC. The foregoing list of important factors is not exclusive. Any forward-looking statements speak only as of the date of this communication.
