#### WESTINGHOUSE AIR BRAKE TECHNOLOGIES CORPORATION

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR THE QUARTERLY PERIOD ENDED MARCH 31, 2015 (UNAUDITED)

#### 1. BUSINESS

Westinghouse Air Brake Technologies Corporation ("Wabtec") is one of the world's largest providers of value-added, technology-based products and services for the global rail industry. Our products are found on virtually all U.S. locomotives, freight cars and passenger transit vehicles, as well as in more than 100 countries throughout the world. Our products enhance safety, improve productivity and reduce maintenance costs for customers, and many of our core products and services are essential in the safe and efficient operation of freight rail and passenger transit vehicles. Wabtec is a global company with operations in 20 countries. In the first three months of 2015, about 49% of the Company's revenues came from customers outside the U.S.

#### 2. ACCOUNTING POLICIES

Basis of Presentation The unaudited condensed consolidated interim financial statements have been prepared in accordance with generally accepted accounting principles and the rules and regulations of the Securities and Exchange Commission and include the accounts of Wabtec and its majority owned subsidiaries. These condensed consolidated interim financial statements do not include all of the information and footnotes required for complete financial statements. In management's opinion, these financial statements reflect all adjustments of a normal, recurring nature necessary for a fair presentation of the results for the interim periods presented. Results for these interim periods are not necessarily indicative of results to be expected for the full year.

The Company operates on a four-four-five week accounting quarter, and the quarters end on or about March 31, June 30, September 30, and December 31.

The notes included herein should be read in conjunction with the audited consolidated financial statements included in Wabtee's Annual Report on Form 10-K for the year ended December 31, 2014. The December 31, 2014 information has been derived from the Company's Annual Report on Form 10-K for the year ended December 31, 2014.

**Revenue Recognition** Revenue is recognized in accordance with Accounting Standards Codification ("ASC") 605 "Revenue Recognition". Revenue is recognized when products have been shipped to the respective customers, title has passed and the price for the product has been determined.

In general, the Company recognizes revenues on long-term contracts based on the percentage of completion method of accounting. The units-of-delivery method or other input-based or output-based measures, as appropriate, are used to measure the progress toward completion of individual contracts. Contract revenues and cost estimates are reviewed and revised at a minimum quarterly and adjustments are reflected in the accounting period as such amounts are determined. Provisions are made currently for estimated losses on uncompleted contracts. Unbilled accounts receivables were \$170.0 million and \$187.8 million, customer deposits were \$106.9 million and \$111.8 million, and provisions for loss contracts were \$9.9 million and \$7.1 million at March 31, 2015 and December 31, 2014, respectively.

Certain pre-production costs relating to long-term production and supply contracts have been deferred and will be recognized over the life of the contracts. Deferred pre-production costs were \$28.1 and \$24.9 million at March 31, 2015 and December 31, 2014, respectively.

Use of Estimates The preparation of financial statements in conformity with generally accepted accounting principles in the United States requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual amounts could differ from the estimates. On an ongoing basis, management reviews its estimates based on currently available information. Changes in facts and circumstances may result in revised estimates.

*Financial Derivatives and Hedging Activities* The Company periodically enters into foreign currency forward contracts to reduce the impact of changes in currency exchange rates. Forward contracts are agreements with a counter-party to exchange two distinct currencies at a set exchange rate for delivery on a set date at some point in the future. There is no exchange of funds until the delivery date. At the delivery date the Company can either take delivery of the currency or settle on a net basis. At March 31, 2015, the Company had no material foreign currency forward contracts.

To reduce the impact of interest rate changes on a portion of its variable-rate debt, the Company has entered into two forward starting interest rate swap agreements with notional values of \$150.0 million. As of March 31, 2015, the Company has recorded a current liability of \$5.1 million and a corresponding offset in accumulated other comprehensive loss of \$3.1 million, net of tax, related to this agreement. For further information regarding the forward starting interest rate swap agreements, see Footnote 6.

Foreign Currency Translation Assets and liabilities of foreign subsidiaries, except for the Company's Mexican operations whose functional currency is the U.S. Dollar, are translated at the rate of exchange in effect on the balance sheet date while income and expenses are translated at the average rates of exchange prevailing during the year. Foreign currency gains and losses resulting from transactions and the translation of financial statements are recorded in the Company's consolidated financial statements based upon the provisions of ASC 830 "Foreign Currency Matters." The effects of currency exchange rate changes on intercompany transactions and balances of a long-term investment nature are accumulated and carried as a component of accumulated other comprehensive loss. The effects of currency exchange rate changes on intercompany transactions that are denominated in a currency other than an entity's functional currency are charged or credited to earnings.

*Non-controlling Interests* In accordance with ASC 810, the Company has classified non-controlling interests as equity on our condensed consolidated balance sheets as of March 31, 2015 and December 31, 2014. Net income attributable to non-controlling interests for the three months ended March 31, 2015 and 2014 was not material.

Recent Accounting Pronouncements In May 2014, the FASB issued ASU no. 2014-09, "Revenue from Contract with Customers." The ASU will supersede most of the existing revenue recognition requirements in U.S. GAAP and will require entities to recognize revenue at an amount that reflects the consideration to which the Company expects to be entitled in exchange for transferring goods or services to a customer. The new standard also requires significantly expanded disclosures regarding the qualitative and quantitative information of an entity's nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. The Pronouncement is effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period and is to be applied retrospectively, with early application not permitted. The Board voted to propose that the standard would take effect for reporting perionds beginning after December 15, 2017 and that early adoption would be allowed as of the original effective date. The Company is currently evaluating the impact the pronouncement will have on the consolidated financial statements and related disclosures.

Other Comprehensive Income Comprehensive income is defined as net income and all other non-owner changes in shareholders' equity.

The changes in accumulated other comprehensive loss by component, net of tax, for the three months ended March 31, 2015 are as follows:

In thousands	Foreign currency ranslation	Derivative contracts	Pension and post retirement benefits plans	Total
Balance at December 31, 2014	\$ (94,450)	(2,243)	(62,793)	\$ (159,486)
Other comprehensive income (loss) before reclassifications	(87,931)	(1,342)	2,400	(86,873)
Amounts reclassified from accumulated other				
comprehensive income	-	315	459	774
Net current period other comprehensive income (loss)	 (87,931)	(1,027)	2,859	(86,099)
Balance at March 31, 2015	\$ (182,381)	\$ (3,270)	\$ (59,934)	\$ (245,585)

Reclassifications out of accumulated other comprehensive loss for the three months ended March 31, 2015 are as follows:

<u>In thousands</u>	Amount reclassified from accumulated other comprehensive income	Affected line item in the Condensed Consolidated Statements of Operations
Amortization of defined pension and post retirement items		
Amortization of initial net obligation and prior service cost	\$ (522)	Cost of sales
Amortization of net loss	1,196	Cost of sales
		Income from
	674	Operations
	(215)	Income tax expense
	\$ 459	Net income
Derivative contracts		
Realized loss on derivative contracts	\$ 463	Interest expense, net
	(148)	Income tax expense
	\$ 315	Net income

## 3. ACQUISITIONS

The Company has made the following acquisitions operating as a business unit or component of a business unit in the Freight Segment:

- On February 4, 2015, the Company acquired Railroad Controls L.P. ("RCL"), a provider of railway signal construction services, for a purchase price of approximately \$75.7 million, net of cash acquired, resulting in preliminary goodwill of \$11.5 million, none of which will be deductible for tax purposes.
- · On September 3, 2014, the Company acquired C2CE Pty Ltd. ("C2CE"), a provider of railway signal design services, for a purchase price of approximately \$25.1 million, net of cash acquired, resulting in preliminary goodwill of \$15.7 million, none of which will be deductible for tax purposes.

The Company has made the following acquisitions operating as a business unit or component of a business unit in the Transit Segment:

- · On August 21, 2014, the Company acquired Dia-Frag ("Dia-Frag"), a manufacturer of friction products for various markets with a focus on motorcycle braking, for a purchase price of approximately \$70.6 million, net of cash acquired, resulting in additional goodwill of \$36.2 million, none of which will be deductible for tax purposes.
- On June 6, 2014, the Company acquired Fandstan Electric Group Ltd. ("Fandstan"), a leading rail and industrial equipment manufacturer for a variety of markets, including rail and tram transportation, industrial and energy, for a purchase price of approximately \$199.4 million, net of cash acquired, resulting in additional goodwill of \$53.4 million, none of which will be deductible for tax purposes.

The acquisitions listed above include escrow deposits of \$40.1 million, which act as security for indemnity and other claims in accordance with the purchase and related escrow agreements.

For the RCL, C2CE, Dia-Frag, and Fandstan acquisitions, the following table summarizes the preliminary estimated fair values of the assets acquired and liabilities assumed at the date of the acquisition.

	RCL		C2CE		Dia-Frag		Fandstan	
In thousands	February 4, 2015		September 3, 2014		September 3, August 21, 2014 2014		June 6, 2014	
Current assets \$	16,445		9,812	\$	12,476	\$	124,704	
Property, plant & equipment	11,983		1,853		13,749		68,498	
Goodwill	11,528	1	5,714		36,195		53,426	
Other intangible assets	40,403		3,654		26,150		50,598	
Other assets	-		-		66		216	
Total assets acquired	80,359	3	1,033		88,636	'	297,442	
Total liabilities assumed	(4,646	) (	5,921)		(17,995)		(98,037)	
Net assets acquired	75,713	\$ 2	5,112	\$	70,641	\$	199,405	

Of the \$120.8 million of total acquired intangible assets, \$88.3 million was assigned to customer relationships, \$25.6 million was assigned to trade names, \$2.1 million was assigned to non-compete agreements and \$4.8 million was assigned to customer backlog. The trade names were determined to have an indefinite useful life, while the customer relationships' average useful life is 20 years, and the non-compete useful life is five years.

The following unaudited pro forma consolidated financial information presents income statement results as if the acquisitions listed above had occurred on January 1, 2014:

In thousands	Months Ended rch 31, 2015	Three Months Ended March 31, 2014		
Net sales	\$ 825,890	\$	800,721	
Gross profit	257,646		241,861	
Net income attributable to Wabtec shareholders	97,322		88,873	
Diluted earnings per share				
As Reported	\$ 0.99	\$	0.83	
Pro forma	\$ 1.00	\$	0.91	

#### 4. INVENTORIES

The components of inventory, net of reserves, were:

In thousands	 March 31, 2015	D	ecember 31, 2014
Raw materials	\$ 206,195	\$	222,059
Work-in-progress	178,806		154,094
Finished goods	130,944		134,796
Total inventories	\$ 515,945	\$	510,949

## 5. INTANGIBLES

The change in the carrying amount of goodwill by segment for the three months ended March 31, 2015 is as follows:

In thousands	Segment	Segment	Total
Balance at December 31, 2014	\$ 515,067	347,271 \$	862,338
Adjustment to preliminary purchase allocation	12	(11,795)	(11,783)
Acquisitions	11,528	-	11,528
Foreign currency impact	(6,163)	(21,763)	(27,926)
Balance at March 31, 2015	\$ 520,444	\$ 313,713 \$	834,157

As of March 31, 2015 and December 31, 2014, the Company's trademarks had a net carrying amount of \$167.3 million and \$170.1 million, respectively, and the Company believes these intangibles have an indefinite life.

Intangible assets of the Company, other than goodwill and trademarks, consist of the following:

In thousands	N	March 31, 2015	De	cember 31, 2014
Patents, non-compete and other intangibles, net of accumulated				
amortization of \$39,607 and \$39,780	\$	13,261	\$	14,722
Customer relationships, net of accumulated amortization				
of \$59,008 and \$56,684		260,826		237,983
Total	\$	274,087	\$	252,705

The weighted average remaining useful life of patents, customer relationships and intellectual property were 10 years, 16 years and 14 years, respectively. Amortization expense for intangible assets was \$5.3 million and \$4.7 million for the three months ended March 31, 2015, and 2014.

Amortization expense for the five succeeding years is estimated to be as follows (in thousands):

Remainder of 2015	\$ 18,277
2016	20,892
2017	19,486
2018	18,508
2019	18.065

#### 6. LONG-TERM DEBT

Long-term debt consisted of the following:

<u>In thousands</u>	N	1arch 31, 2015	December 31 2014		
4.375% Senior Notes, due 2023	\$	250,000	\$	250,000	
Revolving Credit Facility		170,000		270,000	
Capital Leases		985		1,195	
Total		420,985		521,195	
Less - current portion		579		792	
Long-term portion	\$	420,406	\$	520,403	

#### 2013 Refinancing Credit Agreement

On December 19, 2013, the Company amended its existing revolving credit facility with a consortium of commercial banks. This "2013 Refinancing Credit Agreement" provides the Company with an \$800 million, five-year revolving credit facility. The Company incurred approximately \$1.0 million of deferred financing cost related to the 2013 Refinancing Credit Agreement. The facility expires on December 19, 2018. The 2013 Refinancing Credit Agreement borrowings bear variable interest rates indexed as described below. At March 31, 2015, the Company had available bank borrowing capacity, net of \$27.2 million of letters of credit, of approximately \$602.8 million, subject to certain financial covenant restrictions.

Under the 2013 Refinancing Credit Agreement, the Company may elect a Base Rate of interest for U.S. Dollar denominated loans or, for certain currencies, an interest rate based on the London Interbank Offered Rate ("LIBOR") of interest, or other rates appropriate for such currencies (in any case, "the Alternate Rate"). The Base Rate adjusts on a daily basis and is the greater of the Federal Funds Effective Rate plus 0.5% per annum, the PNC, N.A. prime rate or the Daily LIBOR Rate plus 100 basis points, plus a margin that ranges from 0 to 75 basis points. The Alternate Rate is based on the quoted rates specific to the applicable currency, plus a margin that ranges from 75 to 175 basis points. Both the Base Rate and Alternate Rate margins are dependent on the Company's consolidated total indebtedness to cash flow ratios. The initial Base Rate margin is 0 basis points and the Alternate Rate margin is 75 basis points.

At March 31, 2015, the weighted average interest rate on the Company's variable rate debt was 0.93%. On January 12, 2012, the Company entered into a forward starting interest rate swap agreement with a notional value of \$150.0 million. The effective date of the interest rate swap agreement is July 31, 2013, and the termination date is November 7, 2016. The impact of the interest rate swap agreement converts a portion of the Company's outstanding debt from a variable rate to a fixed-rate borrowing. During the term of the interest rate swap agreement the interest rate on the notional value will be fixed at 1.415% plus the Alternate Rate margin. The Company is exposed to credit risk in the event of nonperformance by the counterparty. However, since only the cash interest payments are exchanged, exposure is significantly less than the notional amount. The counterparty is a large financial institution with an excellent credit rating and history of performance. The Company currently believes the risk of nonperformance is negligible.

On June 5, 2014, the Company entered into a forward starting interest rate swap agreement with a notional value of \$150.0 million. The effective date of the interest rate swap agreement is November 7, 2016, and the termination date is December 19, 2018. The impact of the interest rate swap agreement converts a portion of the Company's outstanding debt from a variable rate to a fixed-rate borrowing. During the term of the interest rate swap agreement the interest rate on the notional value will be fixed at 2.56% plus the Alternate Rate margin. The Company is exposed to credit risk in the event of nonperformance by the counterparty. However, since only the cash interest payments are exchanged, exposure is significantly less than the notional amount. The counterparty is a large financial institution with an excellent credit rating and history of performance. The Company currently believes the risk of nonperformance is negligible.

The 2013 Refinancing Credit Agreement limits the Company's ability to declare or pay cash dividends and prohibits the Company from declaring or making other distributions, subject to certain exceptions. The 2013 Refinancing Credit Agreement contains various other covenants and restrictions including the following limitations: incurrence of additional indebtedness; mergers, consolidations, sales of assets and acquisitions; additional liens; sale and leasebacks; permissible investments, loans and advances; certain debt payments; and imposes a minimum interest expense coverage ratio of 3.0 and a maximum debt to cash flow ratio of 3.25. The Company does not expect that these measurements will limit the Company in executing our operating activities.

### 4.375% Senior Notes Due August 2023

In August 2013, the Company issued \$250.0 million of Senior Notes due in 2023 (the "2013 Notes"). The 2013 Notes were issued at 99.879% of face value. Interest on the 2013 Notes accrues at a rate of 4.375% per annum and is payable semi-annually on February 15 and August 15 of each year. The proceeds were used to repay debt outstanding under the Company's existing credit agreement, and for general corporate purposes. The principal balance is due in full at maturity. The Company incurred \$2.6 million of deferred financing costs related to the issuance.

The 2013 Notes are senior unsecured obligations of the Company and rank pari passu with all existing and future senior debt and senior to all existing and future subordinated indebtedness of the Company. The indenture under which the 2013 Notes were issued contains covenants and restrictions which limit among other things, the following: the incurrence of indebtedness, payment of dividends and certain distributions, sale of assets, change in control, mergers and consolidations and the incurrence of liens.

The Company is in compliance with the restrictions and covenants in the indenture under which the 2013 Notes were issued and expects that these restrictions and covenants will not be any type of limiting factor in executing our operating activities.

## 7. EMPLOYEE BENEFIT PLANS

#### **Defined Benefit Pension Plans**

The Company sponsors defined benefit pension plans that cover certain U.S., Canadian, German, and United Kingdom employees and which provide benefits of stated amounts for each year of service of the employee.

The Company uses a December 31 measurement date for the plans.

The following tables provide information regarding the Company's defined benefit pension plans summarized by U.S. and international components.

	U.S.					International				
	Three Months Ended March 31,				Three Months Ended March 31,					
In thousands, except percentages		2015		2014	2015			2014		
Net periodic benefit cost										
Service cost	\$	95	\$	98	\$	506	\$	424		
Interest cost		479		532		1,789		1,821		
Expected return on plan assets		(542)		(620)		(2,416)		(2,216)		
Net amortization/deferrals		266		655		652		758		
Net periodic benefit cost	\$	298	\$	665	\$	531	\$	787		
Assumptions										
Discount rate		3.95%	)	4.70%		3.48%		4.43%		
Expected long-term rate of return		5.70%	)	6.20%		5.79%		6.07%		
Rate of compensation increase		3.00%	•	3.00%		3.10%		3.59%		

The Company's funding methods are based on governmental requirements and differ from those methods used to recognize pension expense. The Company expects to contribute \$6.7 million to the international plans and does not expect to make a contribution to the U.S. plans during 2015.

#### Post Retirement Benefit Plans

In addition to providing pension benefits, the Company has provided certain unfunded postretirement health care and life insurance benefits for a portion of North American employees. The Company is not obligated to pay health care and life insurance benefits to individuals who had retired prior to 1990.

The Company uses a December 31 measurement date for all post retirement plans.

The following tables provide information regarding the Company's postretirement benefit plans summarized by U.S. and international components.

		U.S.					International				
	Three Months Ended March 31,				Three Months Ended March 31,						
In thousands, except percentages		2015		2014		2015		2014

Service cost	\$	2	\$	10	\$	11	\$	9			
Interest cost		308		296		35		42			
Net amortization/deferrals		(234)		(327)		(9)		(15)			
Net periodic benefit (credit) cost	\$	76	\$	(21)	\$	37	\$	36			
Assumptions											
Discount rate		3.95%		4.70%		3.96%		4.60%			

### 8. STOCK-BASED COMPENSATION

As of March 31, 2015, the Company maintains employee stock-based compensation plans for stock options, restricted stock, restricted units, and incentive stock awards as governed by the 2011 Stock Incentive Compensation Plan (the "2011 Plan") and the 2000 Stock Incentive Plan, as amended (the "2000 Plan"). The 2011 Plan has a 10-year term through March 27, 2021 and provides a maximum of 3,800,000 shares for grants or awards. The 2011 Plan was approved by stockholders of Wabtec on May 11, 2011. The Company also maintains a Non-Employee Directors' Fee and Stock Option Plan ("Directors Plan"). No awards may be made under the Directors Plan subsequent to October 31, 2016.

Stock-based compensation expense was \$8.8 million and \$6.7 million for the three months ended March 31, 2015 and 2014, respectively. Included in the stock-based compensation expense for the three months ended March 31, 2015 above is \$0.5 million of expense related to stock options, \$1.6 million related to restricted stock, \$1.1 million related to restricted units, \$5.3 million related to incentive stock awards and \$0.2 million related to awards issued for Directors' fees. At March 31, 2015, unamortized compensation expense related to stock options, restricted stock, restricted units and incentive stock awards expected to vest totaled \$42.2 million and will be recognized over a weighted average period of 1.7 years.

*Stock Options* Stock options are granted to eligible employees and directors at the fair market value, which is the average of the high and low Wabtec stock price on the date of grant. Under the 2011 Plan and the 2000 Plan, options become exercisable over a four-year vesting period and expire 10 years from the date of grant.

The following table summarizes the Company's stock option activity and related information for the 2011 Plan, the 2000 Plan and the Directors Plan for the three months ended March 31, 2015:

Options		Weighted Average Exercise Price	Weighted Average Remaining Contractual Life	Inti	ggregate rinsic value thousands)
Outstanding at December 31, 2014	1,147,558	\$ 28.33	5.5	\$	67,205
Granted	83,035	87.11			618
Exercised	(14,424)	27.58			966
Canceled	(3,216)	47.99			150
Outstanding at March 31, 2015	1,212,953	32.31	5.5		75,497
Exercisable at March 31, 2015	960,252	23.90	4.8		67.838

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model with the following weighted-average assumptions:

	March 31	
	2015	2014
Dividend yield	0.14%	0.11%
Risk-free interest rate	1.82%	2.19%
Stock price volatility	27.3%	33.2%
Expected life (years)	5.0	5.0

The dividend yield is based on the Company's dividend rate and the current market price of the underlying common stock at the date of grant. Expected life in years is determined from historical stock option exercise data. Expected volatility is based on the historical volatility of the Company's stock. The risk-free interest rate is based on the U.S. Treasury bond rates for the expected life of the option.

**Restricted Stock, Restricted Units and Incentive Stock** Beginning in 2006 the Company adopted a restricted stock program. As provided for under the 2011 and 2000 Plans, eligible employees are granted restricted stock or restricted units that generally vest over four years from the date of grant. Under the Directors Plan, restricted stock awards vest one year from the date of grant.

In addition, the Company has issued incentive stock awards to eligible employees that vest upon attainment of certain cumulative three year performance goals. Based on the Company's performance for each three-year period then ended, the incentive stock awards can vest and be awarded ranging from 0% to 200% of the initial incentive stock awards granted. The incentive stock awards included in the table below represent the number of shares that are expected to vest based on the Company's estimate for meeting those established performance targets. As of March 31, 2015, the Company estimates that it will achieve 124%, 135% and 100% for the incentive stock awards expected to vest based on performance for the three-year periods ending December 31, 2015, 2016, and 2017, respectively, and has recorded incentive compensation expense accordingly. If our estimate of the number of these stock awards expected to vest changes in a future accounting period, cumulative compensation expense could increase or decrease and will be recognized in the current period for the elapsed portion of the vesting period and would change future expense for the remaining vesting period.

Compensation expense for the restricted stock and incentive stock awards is based on the average of the high and low Wabtec stock price on the date of grant and recognized over the applicable vesting period.

The following table summarizes the restricted stock and unit activity for the 2011 Plan, the 2000 Plan and the Directors Plan, and incentive stock awards activity for the 2011 Plan and the 2000 Plan with related information for the three months ended March 31, 2015:

	Restricted Stock and Units	Incentive Stock Awards	Weighted Average Grant Date Fair Value
Outstanding at December 31, 2014	438,543	791,608	\$ 47.97
Granted	97,050	123,950	87.06
Vested	(165,316)	(433,932)	36.94
Adjustment for incentive stock awards expected to vest	-	71,976	57.78
Canceled	(3,388)	(2,760)	51.43
Outstanding at March 31, 2015	366,889	550,842	65.33

Waighted

## 9. INCOME TAXES

The overall effective income tax rate was 31.9% and 31.7% for the three ended March 31, 2015, and 2014, respectively. For the three months ended March 31, 2015, the increase in the effective rate is primarily due to additional income earned in jurisdictions with higher statutory tax rates.

As of March 31, 2015 and December 31, 2014, the liability for income taxes associated with uncertain tax positions was \$12.6 million, of which \$5.5 million, if recognized, would favorably affect the Company's effective tax rate.

The Company includes interest and penalties related to uncertain tax positions in income tax expense. As of March 31, 2015 the total accrued interest and penalties are \$2.1 million and \$1.5 million, respectively. As of December 31, 2014 the total accrued interest and penalties were \$1.9 million and \$1.3 million, respectively.

At this time, the Company believes that it is reasonably possible that unrecognized tax benefits of approximately \$0.7 million may change within the next 12 months due to the expiration of statutory review periods and current examinations. With limited exception, the Company is no longer subject to examination by various U.S. and foreign taxing authorities for years before 2011.

## 10. EARNINGS PER SHARE

The computation of basic and diluted earnings per share for net income attributable to Wabtec shareholders is as follows:

	Three Months Ended March 31,						
<u>In thousands, except per share data</u>		2015		2014			
Numerator							
Numerator for basic and diluted earnings per common							
share - net income attributable							
to Wabtec shareholders	\$	96,164	\$	80,134			
Less: dividends declared - common shares							
and non-vested restricted stock		(5,781)		(3,828)			
Undistributed earnings		90,383		76,306			
Percentage allocated to common shareholders (1)		99.6%		99.5%			
		90,021		75,924			
Add: dividends declared - common shares		5,759		3,810			
Numerator for basic and diluted earnings per	<u></u>	·					
common share	\$	95,780	\$	79,734			
Denominator			-	<del></del>			
Denominator for basic earnings per common							
share - weighted average shares		96,243		95,529			
Effect of dilutive securities:							
Assumed conversion of dilutive stock-based							
compensation plans		1,142		1,276			
Denominator for diluted earnings per common share -	<u></u>						
adjusted weighted average shares and assumed conversion		97,385		96,805			
Net income per common share attributable to							
Wabtec shareholders							
Basic	\$	1.00	\$	0.84			
Diluted	\$	0.99	\$	0.83			
(1) Basic weighted-average common shares outstanding		96,243		95,529			
Basic weighted-average common shares outstanding and							
non-vested restricted stock expected to vest		96,607		95,974			
Percentage allocated to common shareholders		99.6%		99.5%			

The Company's non-vested restricted stock contains rights to receive nonforfeitable dividends, and thus, are participating securities requiring the two-class method of computing earnings per share. The calculation of earnings per share for common stock shown above excludes the income attributable to the non-vested restricted stock from the numerator and excludes the dilutive impact of those shares from the denominator.

## 11. WARRANTIES

The following table reconciles the changes in the Company's product warranty reserve as follows:

		1,		
In thousands		2015		2014
Balance at December 31, 2014 and 2013, respectively	\$	87,849	\$	60,593
Warranty expense		6,363		6,023
Warranty claim payments		(7,367)		(3,668)
Foreign currency impact/other		(1,661)		(54)
Balance at March 31, 2015 and 2014, respectively	\$	85,184	\$	62,894

Three Months Ended

#### 12. FAIR VALUE MEASUREMENT AND FAIR VALUE OF FINANCIAL INSTRUMENTS

ASC 820 "Fair Value Measurements and Disclosures" defines fair value, establishes a framework for measuring fair value and explains the related disclosure requirements. ASC 820 indicates, among other things, that a fair value measurement assumes that the transaction to sell an asset or transfer a liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market for the asset or liability and defines fair value based upon an exit price model.

Valuation Hierarchy ASC 820 establishes a valuation hierarchy for disclosure of the inputs to valuation used to measure fair value. This hierarchy prioritizes the inputs into three broad levels as follows. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs are quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly through market corroboration, for substantially the full term of the financial instrument. Level 3 inputs are unobservable inputs based on the Company's assumptions used to measure assets and liabilities at fair value. A financial asset or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement.

The following table provides the liabilities carried at fair value measured on a recurring basis as of March 31, 2015, which are included in other current liabilities on the Condensed Consolidated Balance sheet:

	Fair Value Mea	1, 2015 Using	
Total Carrying	Quoted Prices in		Significant
Value at	Active Markets for	Significant Other	Unobservable
March 31,	Identical Assets	Observable Inputs	Inputs
2015	(Level 1)	(Level 2)	(Level 3)
\$ 5,110	\$ -	\$ 5,110	\$ -
\$ 5,110	\$ -	\$ 5,110	\$ -
	Value at March 31, 2015 \$ 5,110	Total Carrying Value at March 31, 2015  \$ 5,110  Quoted Prices in Active Markets for Identical Assets (Level 1) \$ -	Value at March 31, 2015   Active Markets for Identical Assets (Level 1)   S   5,110   S   5,110   S   5,110

The following table provides the liabilities carried at fair value measured on a recurring basis as of December 31, 2013, which is included in other current liabilities on the Condensed Consolidated Balance sheet:

			Fair Value Measurements at December 31, 2014 Usin								
			Quoted Price	s in			Significant				
			Active Markets for Si			icant Other	Unobservable				
	December 31,		Identical Assets		Observable Inputs		Inputs				
<u>In thousands</u>	2014		(Level 1)		(Level 1) (Level 2)		(Level 3)				
Interest rate swap agreements	\$	3,351	\$		\$	3,351	\$ -				
Total	\$	3,351	\$	-	\$	3,351	\$ -				

To reduce the impact of interest rate changes on a portion of its variable-rate debt, the Company entered into interest rate swaps which effectively converted a portion of the debt from variable to fixed-rate borrowings during the term of the swap contracts. For certain derivative contracts whose fair values are based upon trades in liquid markets, such as interest rate swaps, valuation model inputs can generally be verified and valuation techniques do not involve significant management judgment. The fair values of such financial instruments are generally classified within Level 2 of the fair value hierarchy.

As a result of our global operating activities the Company is exposed to market risks from changes in foreign currency exchange rates, which may adversely affect our operating results and financial position. When deemed appropriate, the Company minimizes these risks through entering into foreign currency forward contracts. The foreign currency forward contracts are valued using broker quotations, or market transactions in either the listed or over-the counter markets. As such, these derivative instruments are classified within Level 2.

The Company's cash and cash equivalents are highly liquid investments purchased with an original maturity of three months or less and are considered Level 1 on the fair value valuation hierarchy. The fair value of cash and cash equivalents approximated the carrying value at March 31, 2015 and December 31, 2014. The Company's defined benefit pension plan assets consist primarily of equity security funds, debt security funds and temporary cash and cash equivalent investments. Generally, all plan assets are considered Level 2 based on the fair value valuation hierarchy. These investments are comprised of a number of investment funds that invest in a diverse portfolio of assets including equity securities, corporate and governmental bonds, and money markets. Trusts are valued at the net asset value ("NAV") as determined by their custodian. NAV represent the accumulation of the unadjusted quoted close prices on the reporting date for the underlying investments divided by the total shares outstanding at the reporting dates. The 2013 Notes are considered Level 2 based on the fair value valuation hierarchy.

The estimated fair values and related carrying values of the Company's financial instruments are as follows:

	 March 31, 2015				December 31, 2014			
	Carry		Fair		Carry			
In thousands	 Value		Value		Value		Value	
Interest rate swap agreement	\$ 5,110	\$	5,110	\$	3,351	\$	3,351	
4.375% Senior Notes	250,000		264,088		250,000		260,000	

The fair value of the Company's interest rate swap agreements and the 2013 Notes were based on dealer quotes and represent the estimated amount the Company would pay to the counterparty to terminate the agreement.

## 13. COMMITMENTS AND CONTINGENCIES

Claims have been filed against the Company and certain of its affiliates in various jurisdictions across the United States by persons alleging bodily injury as a result of exposure to asbestos-containing products. Further information and detail on these claims is described in the Company's Annual Report on Form 10-K for the year ended December 31, 2014, in Note 18 therein, filed on February 20, 2015. During the first three months for 2015, there were no material changes to the information described in the Form 10-K.

The Company is also subject to litigation from time to time arising out of its operations in the ordinary course of business, including claims based on product liability, contracts, intellectual property, or other causes of action. Further information and detail on any potentially material litigation is as described in the Company's Annual Report on Form 10-K for the year ended December 31, 2014, in Note 18 therein, filed on February 20, 2015. During the first three months of 2015, there were no material changes to the information described in the Form 10-K.

#### 14. SEGMENT INFORMATION

Wabtec has two reportable segments—the Freight Segment and the Transit Segment. The key factors used to identify these reportable segments are the organization and alignment of the Company's internal operations, the nature of the products and services, and customer type. The business segments are:

**Freight Segment** primarily manufactures and services components for new and existing freight cars and locomotives, builds new switcher locomotives, rebuilds freight locomotives, supplies railway electronics, positive train control equipment, signal design and engineering services, friction products, and provides related heat exchange and cooling systems. Customers include large, publicly traded railroads, leasing companies, manufacturers of original equipment such as locomotives and freight cars, and utilities.

**Transit Segment** primarily manufactures and services components for new and existing passenger transit vehicles, typically subway cars and buses, builds new commuter locomotives, friction products, and refurbishes subway cars. Customers include public transit authorities and municipalities, leasing companies, and manufacturers of subway cars and buses around the world.

The Company evaluates its business segments' operating results based on income from operations. Corporate activities include general corporate expenses, elimination of intersegment transactions, interest income and expense and other unallocated charges. Since certain administrative and other operating expenses and other items have not been allocated to business segments, the results in the following tables are not necessarily a measure computed in accordance with generally accepted accounting principles and may not be comparable to other companies.

Segment financial information for the three months ended March 31, 2015 is as follows:

<u>In thousands</u>	 Freight Segment	 Transit Segment	Ac	Corporate tivities and limination	Total
Sales to external customers	\$ 511,887	\$ 306,707	\$	-	\$ 818,594

#### Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the information in the unaudited condensed consolidated financial statements and notes thereto included herein and Westinghouse Air Brake Technologies Corporation's Financial Statements and Management's Discussion and Analysis of Financial Condition and Results of Operations included in its Annual Report on Form 10-K for the year ended December 31, 2014, filed with the Securities and Exchange Commission on February 20, 2015.

#### **OVERVIEW**

Wabtec is one of the world's largest providers of value-added, technology-based products and services for the global rail industry. Our products are found on virtually all U.S. locomotives, freight cars and passenger transit vehicles, as well as in more than 100 countries throughout the world. Our products enhance safety, improve productivity and reduce maintenance costs for customers, and many of our core products and services are essential in the safe and efficient operation of freight rail and passenger transit vehicles. Wabtec is a global company with operations in 20 countries. In the first three months of 2015, about 49% of the Company's revenues came from customers outside the U.S.

#### Management Review and Future Outlook

Wabtee's long-term financial goals are to generate cash flow from operations in excess of net income, maintain a strong credit profile while minimizing our overall cost of capital, increase margins through strict attention to cost controls and implementation of the Wabtee Performance System, and increase revenues through a focused growth strategy, including global and market expansion, new products and technologies, aftermarket products and services, and acquisitions. In addition, management evaluates the Company's current operational performance through measures such as quality and on-time delivery.

The Company monitors a variety of factors and statistics to gauge activity in key freight rail and passenger transit markets such as North and South America, Europe and Asia-Pacific. In these and other markets, the freight rail industry is largely driven by general economic conditions, which can cause fluctuations in rail traffic and the level of investment spending by railroads and governments to expand, upgrade, and modernize their networks. Based on those fluctuations, railroads and governments can increase or decrease purchases of new locomotives and freight cars, and spending on rail-related infrastructure. The passenger transit industry is driven mainly by the spending of government agencies and authorities as they maintain, expand and modernize their transit systems. In doing so, they will increase or decrease spending on new locomotives, transit/subway cars, buses and related infrastructure. Farebox revenues, the fees paid by riders to use public transit, also provide funding for maintaining and operating the systems. Many government entities at all levels are facing budget issues, which could have a negative effect on demand for the Company's products and services.

In North America, the Association of American Railroads (AAR) compiles freight rail industry statistics such as carloadings, generally referred to as "rail traffic," and the Railway Supply Institute (RSI) releases data on freight car orders, deliveries, and backlog. In the first quarter of 2015, carloadings in North America increased 1.6% from 2014, including a 2.2% increase in intermodal traffic. According to the RSI, in the first quarter of 2015, the industry multi-year backlog of freight cars on order increased to about 100,000. In 2015, we expect deliveries of new locomotives to be lower and deliveries of new freight cars to be higher than in 2014. Future demand depends largely on the strength in the overall economy and in rail traffic volumes.

The American Public Transportation Association (APTA) provides quarterly transit ridership statistics for the U.S. and Canada. In 2014 ridership increased about 1% in both countries. In 2012, the U.S. Congress passed a new, two-year transportation funding bill, which maintained transit spending at about the same level, about \$10.7 billion, as in prior years. Subsequent extensions to the bill continued to fund transit spending at about the same level. The Company expects deliveries of new subway cars to increase in 2015, while bus deliveries are expected to be about the same compared to 2014.

In 2008, the U.S. federal government enacted a rail safety bill that mandates the use of PTC technology, which includes on-board locomotive computer and related software, on a majority of the locomotives and track in the U.S. With our Electronic Train Management System®, we are the leading supplier of this on-board train control equipment, and we are working with the U.S. Class I railroads, commuter rail authorities and other industry suppliers to implement this technology by the December 31, 2015 deadline set in the rail safety bill. The railroads and commuter rail authorities have said they cannot complete full implementation by the deadline, and the U.S. Congress has discussed extending it. An extension of the deadline could affect the rate of industry spending on this technology. Wabtec's PTC revenue was about \$94 million for the three months ended March 31, 2015.

Wabtec continues to expand its presence in freight rail and passenger transit markets outside the U.S., particularly in Europe, Asia-Pacific and South America. In Europe, the majority of the rail system serves the passenger transit market, which is larger than the transit market in the U.S. Our presence in the U.K., Germany and Italy has positioned the Company to take advantage of this market. Asia-Pacific is a growth market and our various joint ventures and direct exports to China have positioned the Company to take advantage of this growth. Australia has also been an area of expansion for the Company as commodity suppliers use our products to meet the demands of their regional customers. In Brazil, the Company is completing a PTC contract, has expanded locations and has completed three acquisitions, allowing us to increase our sales in that market.

Current conditions in these international markets vary based on general economic factors and specific freight rail and passenger transit drivers, as mentioned above. In its most recent quarterly data, the Office of Rail Regulation in the U.K. reported an increase in passenger ridership of 6.7% and a slight decrease in freight moved. In Germany, the government statistics bureau reported an increase of 0.6% for passenger rail and bus ridership in 2014, and a decrease in rail freight transport of 2.3% for the same period. Russian Railways announced a decrease of 6.4% in passenger ridership in the first three months of 2015 compared to the year-ago period, and it said freight tons loaded were 0.6% lower than the year-ago period. For its fiscal year ended March 31, 2015, Indian Railways announced a 4.2% increase in freight loadings and a 2.3% decrease in passengers.

In 2015 and beyond, general economic and market conditions in our key markets could have an impact on our sales and operations. To the extent that these factors cause instability of capital markets, shortages of raw materials or component parts, longer sales cycles, deferral or delay of customer orders or an inability to market our products effectively, our business and results of operations could be materially adversely affected. In addition, we face risks associated with our four-point growth strategy including the level of investment that customers are willing to make in new technologies developed by the industry and the Company, and risks inherent in global expansion. When necessary, we will modify our financial and operating strategies to reflect changes in market conditions and risks.

#### RESULTS OF OPERATIONS

The following table shows our Consolidated Statements of Operations for the periods indicated.

	Three Months Ended March 31,					
<u>In millions</u>		2015	2014			
Net sales	\$	818,594 \$	695,249			
Cost of sales		(563,239)	(485,680)			
Gross profit		255,355	209,569			
Selling, general and administrative expenses		(84,771)	(70,081)			
Engineering expenses		(16,863)	(12,946)			
Amortization expense		(5,301)	(4,696)			
Total operating expenses		(106,935)	(87,723)			
Income from operations		148,420	121,846			
Interest expense, net		(4,306)	(4,450)			
Other income (expense), net		(2,866)	(17)			
Income from operations before income taxes		141,248	117,379			
Income tax expense		(45,084)	(37,245)			
Net income attributable to Wabtec shareholders	\$	96,164 \$	80,134			

#### FIRST QUARTER 2015 COMPARED TO FIRST QUARTER 2014

The following table summarizes our results of operations for the periods indicated:

	Three months ended March 31,					
<u>In thousands</u>		2015		2014	Percent Change	
Freight Segment	\$	511,887	\$	385,506	32.8%	
Transit Segment		306,707		309,743	(1.0%)	
Net sales		818,594		695,249	17.7%	
Income from operations		148,420		121,846	21.8%	
Net income attributable to Wabtec shareholders	\$	96,164	\$	80,134	20.0%	

The following table shows the major components of the change in sales in the first quarter of 2015 from the first quarter of 2014:

In thousands	Freight Segment	 Transit Segment	 Total
First Quarter 2014 Net Sales	\$ 385,506	\$ 309,743	\$ 695,249
Acquisitions	18,134	59,837	77,971
Change in Sales by Product Line:			
Specialty Products & Electronics	84,530	3,246	87,776
Brake Products	14,693	3,530	18,223
Remanufacturing, Overhaul & Build	12,902	(37,831)	(24,929)
Other Transit Products	-	(3,280)	(3,280)
Other	6,486	(197)	6,289
Foreign exchange	(10,364)	(28,341)	(38,705)
First Quarter 2015 Net Sales	\$ 511,887	\$ 306,707	\$ 818,594

Net sales for the three months ended March 31, 2015 increased by \$123.3 million or 17.7% to \$818.6 million from \$695.2 million. The increase is due to sales from acquisitions of \$78.0 million, \$87.8 million for Specialty Products and Electronics sales from higher demand for freight original equipment products, aftermarket electronic and positive trail control products, and \$18.2 million for Brake Products sales due to higher demand for original equipment brakes for freight customers and aftermarket brakes from certain transit authorities. These increases were partially offset by \$24.9 million in lower Remanufacturing, Overhaul and Build sales related primarily to original transit locomotives. Unfavorable foreign exchange decreased sales \$38.7 million.

Freight Segment sales increased by \$126.4 million, or 32.8%, primarily due to an increase of \$84.5 million for Specialty Products and Electronics sales from higher demand for freight original equipment rail products, positive train control electronics, and aftermarket rail products, and \$14.7 million for Brake Products due to higher demand for original equipment brakes due to higher car builds. Acquisitions increased sales by \$18.1 million, while unfavorable foreign exchange decreased sales by \$10.4 million.

Transit Segment sales decreased by \$3.0 million, or 1.0%, primarily due to a decrease of \$37.8 million for Remanufacturing, Overhaul & Build from lower demand for original transit locomotives primarily related to a multi-year project which was substantially completed in 2014 and unfavorable foreign exchange of \$28.3 million. These decreases were partially offset by sales from acquisitions of \$59.8 million

Cost of Sales and Gross Profit. Cost of Sales increased by \$77.6 million to \$563.2 million in the first quarter of 2015 compared to \$485.7 million in the same period of 2014.

Raw material costs were approximately 42% and 43% of sales in the first quarters of 2015 and 2014, respectively. Labor costs were approximately 11% and 12% of sales in the first quarters of 2015 and 2014, respectively. Overhead costs were approximately 14% and 13% in the first quarters of 2015 and 2014, respectively. Freight Segment raw material costs increased as a percentage of sales to approximately 39% in the first quarter of 2015 from 36% in the same period of 2014 primarily due to higher original equipment sales which have a higher raw material content. Freight Segment labor costs were approximately 10% as a percentage of sales in the first quarter of 2015 compared to 9% in the same period of 2014, and overhead costs were approximately 12% as a percentage of sales in the first quarters of 2015 and 2014. Transit Segment raw material costs as a percentage of sales decreased from approximately 43% in the first quarter of 2014 to 39% in the same period of 2015 primarily due to lower original equipment locomotive sales which have higher raw material content. Transit Segment labor costs as a percentage of sales decreased from 13% in the first quarter of 2014 to 12% in the first quarter of 2015 primarily due to lower original equipment locomotive sales which have a higher labor content, and overhead costs increased from 13% for the first quarter of 2014 to 14% for the first quarter of 2015.

Included in cost of sales is warranty expense. The provision for warranty expense is generally established for specific losses, along with historical estimates of customer claims as a percentage of sales, which can cause variability in warranty expense between quarters. Warranty expense was \$6.4 million in the first quarter of 2015 compared to \$6.0 million in the first quarter of 2014. As a percentage of sales, warranty expense was 0.8% for the first quarter of 2015 compared to 0.9% for the first quarter of 2014, respectively.

Gross profit for the three months ended March 31, 2015 increased \$45.8 million to \$255.4 million from \$209.6 million and the gross profit margin increased 110 basis points to 31.2% from 31.0%. These increases are due to higher sales volume and the reasons discussed above.

*Operating expenses* The following table shows our operating expenses for the periods indicated:

	Three months ended March 31,						
			Percentage of			Percentage of	
In thousands		2015	Sales		2014	Sales	
Selling, general and administrative expenses	\$	84,771	10.4%	\$	70,081	10.1%	
Engineering expenses		16,863	2.1%		12,946	1.9%	
Amortization expense		5,301	0.6%		4,696	0.7%	
Total operating expenses	\$	106,935	13.1%	\$	87,723	12.6%	

Total operating expenses were 13.1% and 12.6% of sales for the first quarters of 2015 and 2014, respectively. Selling, general, and administrative expenses increased \$14.7 million, or 21.0%, primarily due to the higher sales volume and \$11.2 million of additional expenses from acquisitions. Engineering expense increased by \$3.9 million primarily due to \$3.0 million related to acquisitions. Costs related to engineering for specific customer contracts are included in cost of sales. Amortization expense increased \$0.6 million due to amortization of intangibles associated with acquisitions.

The following table shows our segment operating expense for the periods indicated:

	Three months ended March 31,						
In thousands		2015		2014	Percent Change		
Freight Segment	\$	52,159	\$	43,056	21.1%		
Transit Segment		50,205		40,064	25.3%		
Corporate	<u></u>	4,571		4,603	(0.7%)		
Total operating expenses	\$	106,935	\$	87,723	21.9%		

Freight Segment operating expenses increased \$9.1 million, or 21.1%, in the first quarter of 2015 and was 10.2% of sales. The increase primarily relates to \$3.0 million of incremental operating costs from acquisitions, an increase of \$3.1 million related to higher incentive compensation and higher costs to support the higher sales volume..

Transit Segment operating expenses increased \$10.1 million, or 25.3%, in the first quarter of 2015 and was 16.4% of sales. The increase is primarily related to \$8.3 million of incremental selling, general, and administrative expense and \$2.9 million of incremental engineering expense related to acquisitions.

*Income from operations* Income from operations totaled \$148.4 million or 18.1% of sales in the first quarter of 2015 compared to \$121.8 million or 17.5% of sales in the same period of 2014. Income from operations increased due to higher sales volume, partially offset by higher operating expenses discussed above.

Interest expense, net Interest expense, net, decreased \$0.1 million in the first quarter of 2015 compared to the same period of 2014 due to lower debt balances.

*Income taxes* The effective income tax rate was 31.9% and 31.7% for the first quarter of 2015 and 2014, respectively. The increase in the effective rate is primarily due to additional income earned in jurisdictions with higher statutory tax rates.

*Net income* Net income for the first quarter of 2015 was \$96.2 million or \$0.99 per diluted share compared to \$80.1 million or \$0.83 per diluted share in the prior year quarter. The increase in net income is due to higher sales volume, partially offset by higher operating expenses discussed above.

#### **Liquidity and Capital Resources**

Liquidity is provided primarily by operating cash flow and borrowings under the Company's unsecured credit facility with a consortium of commercial banks. The following is a summary of selected cash flow information and other relevant data:

	 Three Months Ended March 31,				
In thousands	 2015	2014			
Cash provided by (used for):					
Operating activities	\$ 43,661 \$	26,215			
Investing activities	(84,033)	(4,928)			
Financing activities	(119,781)	(8,954)			
(Decrease) increase in cash	\$ (176,714) \$	9,343			

*Operating activities* In the first three months of 2015 and 2014, cash provided by operations was \$43.7 million and \$26.2 million, respectively. In comparison to the first three months of 2014, cash provided by operations in 2015 increased due to reduced working capital compared to the prior year, couple with higher operating results. The major components of the higher cash inflows were as follows: a positive change in accounts receivable of \$40.9 million driven by collections due to achieving certain project related milestones and a positive change in accrued income taxes of \$8.1 million due to payment timing. These cash inflows were partially offset by an unfavorable change in accounts payable of \$32.1 million due to payment timing.

Investing activities In the first three months of 2015 and 2014, cash used in investing activities was \$84.0 million and \$4.9 million, respectively. The major components of the cash outflow in 2015 were \$75.7 million in net cash paid for acquisitions and planned additions to property, plant and equipment of \$8.5 million for continued investments in our facilities and manufacturing processes. This compares to \$6.3 million in property, plant, and equipment for investments in the first quarter of 2014. Refer to Note 3 of the "Notes to Condensed Consolidated Financial Statements" for additional information on acquisitions.

Financing activities In the first three months of 2015, cash used for financing activities was \$119.8 million, which included \$111.7 million in proceeds from the revolving credit facility, \$211.8 million of repayments of debt on the revolving credit facility, \$14.6 million related to payment of income tax withholding on shared based compensation, and \$5.8 million of dividend payments. In the first three months of 2014, cash used for financing activities was \$9.0 million, which included \$50.0 million in proceeds from debt and \$50.1 million of repayments of debt on the revolving credit facility, \$4.4 million for the settlement of contingent purchase price obligations related to an acquisition, \$2.2 million for the repurchase of Wabtec stock, and \$3.8 million of dividend payments.

#### Company Stock Repurchase Plan

On December 11, 2013, the Board of Directors amended its stock repurchase authorization to \$200.0 million of the Company's outstanding shares. The Company did not repurchase any shares during the first three months of 2015, leaving \$173.2 million under the authorization.

The Company intends to purchase shares on the open market or in negotiated or block trades. No time limit was set for the completion of the programs which conforms to the requirements under the 2013 Refinancing Credit Agreement, as well as the Notes currently outstanding.

## **Contractual Obligations and Off-Balance Sheet Arrangements**

As of March 31, 2015, the Company has recognized a total liability of \$12.6 million for unrecognized tax benefits related to uncertain tax positions. At this time, the Company is unable to make a reasonably reliable estimate of the timing of cash settlement for any of the unrecognized tax benefits due to the uncertainty of the timing and outcome of its audits and other factors.

Since December 31, 2014, there have been no other significant changes in the total amount of the Company's contractual obligations or the timing of cash flows in accordance with those obligations, as reported in the Company's Annual Report on Form 10-K for the year ended December 31, 2014.

#### **Forward Looking Statements**

We believe that all statements other than statements of historical facts included in this report, including certain statements under "Business" and "Management's Discussion and Analysis of Financial Condition and Results of Operations," may constitute forward-looking statements. We have based these forward-looking statements on our current expectations and projections about future events. Although we believe that our assumptions made in connection with the forward-looking statements are reasonable, we cannot assure that our assumptions and expectations are correct.

These forward-looking statements are subject to various risks, uncertainties and assumptions about us, including, among other things:

#### Economic and industry conditions

- prolonged unfavorable economic and industry conditions in the markets served by us, including North America, South America, Europe, Australia, Asia and South Africa;
- decline in demand for freight cars, locomotives, passenger transit cars, buses, power generation equipment and related products and services;
- reliance on major original equipment manufacturer customers;
- original equipment manufacturers' program delays;
- demand for services in the freight and passenger rail industry;
- demand for our products and services;
- orders either being delayed, cancelled, not returning to historical levels, or reduced or any combination of the foregoing;
- consolidations in the rail industry;
- continued outsourcing by our customers; industry demand for faster and more efficient braking equipment;
- fluctuations in interest rates and foreign currency exchange rates; or
- availability of credit;

#### Operating factors

- supply disruptions;
- technical difficulties;
- changes in operating conditions and costs;
- increases in raw material costs;
- successful introduction of new products;
- performance under material long-term contracts;
- labor relations;
- completion and integration of acquisitions; or
- the development and use of new technology;

#### Competitive factors

• the actions of competitors;

### Political/governmental factors

- political stability in relevant areas of the world;
- future regulation/deregulation of our customers and/or the rail industry;
- levels of governmental funding on transit projects, including for some of our customers;
- political developments and laws and regulations, including those related to Positive Train Control;
- federal and state income tax legislation; or

• the outcome of our existing or any future legal proceedings, including litigation involving our principal customers and any litigation with respect to environmental, asbestos-related matters and pension liabilities; and

#### Transaction or commercial factors

• the outcome of negotiations with partners, governments, suppliers, customers or others.

Statements in this 10-Q apply only as of the date on which such statements are made, and we undertake no obligation to update any statement to reflect events or circumstances after the date on which the statement is made or to reflect the occurrence of unanticipated events. Reference is also made to the risk factors set forth in the Company's Annual Report on Form 10-K for the year ended December 31, 2014.

#### **Critical Accounting Policies**

A summary of critical accounting policies is included in the Company's Annual Report on Form 10-K for the year ended December 31, 2014. In particular, judgment is used in areas such as accounts receivable and the allowance for doubtful accounts, inventories, goodwill and indefinite-lived intangibles, warranty reserves, pensions and postretirement benefits, income taxes and revenue recognition. There have been no significant changes in accounting policies since December 31, 2014.

#### Item 3. OUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

#### **Interest Rate Risk**

In the ordinary course of business, Wabtec is exposed to risks that increases in interest rates may adversely affect funding costs associated with its variable-rate debt. The Company's variable rate debt represents 5% and 23% of total long-term debt at March 31, 2015 and December 31, 2014, respectively. On an annual basis a 1% change in the interest rate for variable rate debt at March 31, 2015 would increase or decrease interest expense by about \$0.2 million. To reduce the impact of interest rate changes on a portion of this variable-rate debt, the Company entered into forward interest rate swap agreements which converts a portion of the debt from variable to fixed-rate borrowings during the term of the swap contract. Refer to Note 6 – Long Term Debt of "Notes to Condensed Consolidated Financial Statements" for additional information regarding interest rate risk.

### Foreign Currency Exchange Risk

The Company is subject to certain risks associated with changes in foreign currency exchange rates to the extent our operations are conducted in currencies other than the U.S. dollar. For the first three months of 2015, approximately 51% of Wabtec's net sales were to customers in the United States, 10% in the United Kingdom, 7% in Canada, 6% in Mexico, 3% in Australia, 3% in Brazil, 3% in Germany, 3% in China, and 14% in other international locations. To reduce the impact of changes in currency exchange rates, the Company has periodically entered into foreign currency forward contracts. Refer to "Financial Derivatives and Hedging Activities" in Note 2 of "Notes to Condensed Consolidated Financial Statements" for more information regarding foreign currency exchange risk.

#### Item 4. CONTROLS AND PROCEDURES

Wabtec's principal executive officer and its principal financial officer have evaluated the effectiveness of Wabtec's "disclosure controls and procedures," (as defined in Exchange Act Rule 13a-15(e)) as of March 31, 2015. Based upon their evaluation, the principal executive officer and principal financial officer concluded that Wabtec's disclosure controls and procedures are effective to provide reasonable assurance that information required to be disclosed by Wabtec in the reports filed or submitted by it under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and to provide reasonable assurance that information required to be disclosed by Wabtec in such reports is accumulated and communicated to Wabtec's Management, including its principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

There was no change in Wabtec's "internal control over financial reporting" (as defined in Rule 13a-15(f) under the Exchange Act) that occurred during the quarter ended March 31, 2015, that has materially affected, or is reasonably likely to materially affect, Wabtec's internal control over financial reporting.

#### PART II—OTHER INFORMATION

#### Item 1. LEGAL PROCEEDINGS

There have been no material changes regarding the Company's commitments and contingencies as described in Note 18 of the Company's Annual Report on Form 10-K for the year ended December 31, 2014.

#### Item 1A. RISK FACTORS

There have been no material changes in our risk factors from those disclosed in our Annual Report on Form 10-K for the year ended December 31, 2014.

## Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

On December 11, 2013, the Board of Directors amended its stock repurchase authorization to \$200.0 million of the Company's outstanding shares. During the first three months of 2015, the Company did not repurchase any shares, leaving \$173.2 million under the authorization.

The Company intends to purchase shares on the open market or in negotiated or block trades. No time limit was set for the completion of the programs which conforms to the requirements under the 2013 Refinancing Credit Agreement, as well as the Notes currently outstanding.

#### Item 4. MINE SAFETY DISCLOSURES

Not Applicable

#### Item 6. EXHIBITS

The following exhibits are being filed with this report:

- 31.1 Rule 13a-14(a) Certification of Chief Executive Officer.
- 31.2 Rule 13a-14(a) Certification of Chief Financial Officer.
- 32.1 Section 1350 Certification of Chief Executive Officer and Chief Financial Officer.
- 101.INS XBRL Instance Document.
- 101.SCH XBRL Taxonomy Extension Schema Document.
- 101.CAL XBRL Taxonomy Extension Calculation Linkbase Document.
- 101.DEF XBRL Taxonomy Extension Definition Linkbase Document.
- 101.LAB XBRL Taxonomy Extension Label Linkbase Document.
- 101.PRE XBRL Taxonomy Extension Presentation Linkbase Document.

## **SIGNATURES**

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the Company has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

#### CERTIFICATION

#### I, Raymond T. Betler, certify that:

- 1. I have reviewed this quarterly report on Form 10-Q of Westinghouse Air Brake Technologies Corporation.
- 2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;
- 4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and we have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this quarterly report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this quarterly report based on such evaluation; and
  - (d) Disclosed in this quarterly report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
