PROSPECTUS SUPPLEMENT SUMMARY

This summary highlights selected information contained elsewhere in, or incorporated by reference into, this prospectus supplement or the accompanying prospectus. Because it is a summary, it does not contain all of the information that you should consider before investing in our Common Stock. You should read this entire prospectus supplement and the accompanying prospectus carefully, including the section entitled “Risk Factors” and the documents that we incorporate by reference into this prospectus supplement and the accompanying prospectus, before making an investment decision.

The Company

Wabtec is one of the world’s largest providers of value-added, technology-based equipment, systems and services for the global passenger transit and freight rail industries. We believe we hold a leading market share for many of our core product lines globally. Our highly engineered products, which are intended to enhance safety, improve productivity and reduce maintenance costs for customers, can be found on most locomotives, freight cars, passenger transit cars and buses around the world. We provide our products and services through two principal business segments, the Transit Segment and the Freight Segment.

The Transit Segment primarily manufactures and services components for new and existing passenger transit vehicles, typically regional trains, high speed trains, subway cars, light-rail vehicles and buses; supplies rail control and infrastructure products including electronics, positive train control equipment, and signal design and engineering services; builds new commuter locomotives; and refurbishes passenger transit vehicles. Customers include public transit authorities and municipalities, leasing companies and manufacturers of passenger transit vehicles and buses around the world. Demand in the transit market is primarily driven by general economic conditions, passenger ridership levels, government spending on public transportation and investment in new rolling stock.

The Freight Segment primarily manufactures and services components for new and existing locomotives and freight cars; supplies rail control and infrastructure products including electronics, positive train control equipment and signal design and engineering services; overhauls locomotives; and provides heat exchangers and cooling systems for rail and other industrial markets. Customers include large, publicly traded railroads, leasing companies, manufacturers of original equipment such as locomotives and freight cars and utilities. Demand is primarily driven by general economic conditions and industrial activity; traffic volumes, as measured by freight carloadings; investment in new technologies; and deliveries of new locomotives and freight cars.

The Combination with GE Transportation

On February 25, 2019, we consummated the combination of Wabtec with the transportation business (“GE Transportation”) of General Electric Company (“GE” or the “selling stockholder”) through a series of transactions (collectively, the “GET transactions”), including the merger (the “Merger”) of Wabtec US Rail Holdings, Inc., a Delaware corporation (“Merger Sub”), with and into Transportation Systems Holdings Inc., a Delaware Corporation, which, in connection with the Merger, changed its name to GE Transportation, a Wabtec Company (“SpinCo”), pursuant to the terms of the Agreement and Plan of Merger, dated as of May 20, 2018 and amended as of January 25, 2019, by and among Wabtec, GE, Merger Sub and SpinCo. Pursuant to the terms of the transaction agreements, Wabtec issued 46,763,975 shares of Common Stock to the holders of GE common stock, 19,018,207 shares of Common Stock to GE and 10,000 shares of Series A Preferred Stock to GE, and made a cash payment to GE of \$2.85 billion.

Pursuant to the Shareholders Agreement, dated February 25, 2019, by and between Wabtec and GE (the “Shareholders Agreement”), GE is subject to certain requirements to sell, transfer or otherwise divest (i) by no later than 120 days following the closing date of the Merger, GE’s (and its affiliates’) ownership of Common Stock and/or Series A Preferred Stock so that GE (together with its affiliates) beneficially owns not less than 14.9% and not more than 19.9% of the number of shares of Common Stock that were outstanding immediately

after the closing of the Merger, (ii) by no later than one year following the closing date of the Merger, GE's (and its affiliates') ownership of Common Stock and/or Series A Preferred Stock so that GE (together with its affiliates) beneficially owns not more than 18.5% of the number of shares of Common Stock that were outstanding immediately after the closing of the Merger, in each case of clauses (i) and (ii) treating the Series A Preferred Stock as the Common Stock into which it is convertible both for purposes of determining the number of shares of Common Stock owned and for purposes of determining the number of shares of Common Stock outstanding for such calculations and (iii) by no later than the third anniversary of the closing date of the Merger, all of the subject shares that GE (together with its affiliates) beneficially owns.

Recent Developments

The preliminary unaudited financial data presented below reflects our preliminary financial results based upon information available to us as of the date of this prospectus supplement, is not a comprehensive statement of our financial results for the three months ended March 31, 2019 and has not been audited or reviewed by either Wabtec's or GE Transportation's independent registered public accounting firms, nor has any independent registered public accounting firm performed any procedures with respect to such data or information. Our actual results may differ materially from this preliminary data. During the course of the preparation of our financial statements and related notes, additional adjustments to the preliminary unaudited financial data presented below may be identified. Any such adjustments may be material.

Preliminary First Quarter 2019 Financial Results

On April 25, 2019, we reported our unaudited preliminary financial results for the three-months ended March 31, 2019. The following table shows selected preliminary consolidated financial information of the Company.

<i>In thousands, except per share amounts</i>	Three Months Ended March 31

Total liabilities	9,297,459	5,780,159
Total shareholders' equity	9,780,446	2,869,075

Our preliminary first quarter 2019 financial results reflect the contribution of GE Transportation's results for five weeks of the quarter. In connection with the GET transactions, during the three months ended March 31, 2019, we had pre-tax expense of \$20 million for non-cash, recurring purchase price accounting charges and incurred one-time, non-recurring expenses comprising \$58.9 million of transaction and restructuring costs, \$80.0 million of non-cash purchase price accounting charges and \$14.0 million of non-cash, accounting policy harmonization.

Net sales for the three months ended March 31, 2019 increased by \$537.4 million to \$1,593.6 million. The increase is primarily due to the contribution of GE Transportation during this period. For the three months ended March 31, 2019, we had Freight Segment net sales of \$876.4 million and Transit Segment net sales of \$717.2 million compared to \$379.6 million and \$676.6 million, respectively, for the corresponding prior-year period. Freight Segment sales increased primarily from the contribution of GE Transportation supplemented by organic sales growth. Transit Segment sales increased primarily from organic sales growth, partially offset by unfavorable foreign exchange.

For the three months ended March 31, 2019, cost of sales increased \$459.3 million to \$1,204.6 million and total operating expenses increased \$142.1 million to \$321.7 million, in each case, primarily as a result of the contribution of GE Transportation and costs related to the completion of the Merger.

Interest expense, net increased \$24.3 million for the three month period ended March 31, 2019 compared to the corresponding prior-year period, primarily because of additional interest expense associated with the senior notes issued by Wabtec in September 2018 in connection with the financing of the GE Transportation acquisition.

Other income (expense), net totaled \$8.2 million of expense for the three month period ended March 31, 2019 compared to \$2.6 million of income for the corresponding period in 2018, primarily due to the remeasurement of certain foreign currency-denominated contracts.

For the three-months ended March 31, 2019, we had depreciation of \$27.2 million and amortization of \$28.7 million.

At March 31, 2019, our multi-year backlog was approximately \$23.3 billion and our 12-month backlog was approximately \$6.1 billion.

After February 24, 2019, the financial results of GE Transportation are consolidated with those of Wabtec.

From the consummation of the GE transactions on February 25, 2019, GE Transportation’s financial results have been consolidated with those of Wabtec.

The supplemental unaudited pro forma financial information set forth above is based on preliminary results and has not been audited or reviewed by either Wabtec’s or GE Transportation’s independent registered public accounting firms, nor has any independent registered public accounting firm performed any procedures with respect to such data or information. While we believe that such supplemental information is based on reasonable assumptions, actual results may vary, and any such variations may be material.

RISK FACTORS

An investment in our Common Stock involves risks. Before deciding whether to purchase any of our securities, you should carefully consider the risks involved in an investment in our securities, as set forth in Item 1A, Risk Factors, in our Annual Report on Form 10-K for our fiscal year ended December 31, 2018, and the other risks described in this prospectus supplement or the accompanying prospectus and in any of the documents incorporated by reference in this prospectus supplement or the accompanying prospectus. These risks are not the only ones we will face. The risks and uncertainties that we discuss in any document incorporated by reference in this prospectus supplement or the accompanying prospectus are those that we believed as of the date of the document to be risks which may materially affect our company. Additional risks and uncertainties not then known to us or that we then believed to be immaterial also may materially and adversely affect our business, financial condition and results of operations. The trading price of our Common Stock could decline due to any of these risks, and you may lose all or part of your investment.

Risks Relating to This Offering and Our Common Stock

The unaudited pro forma combined financial information of Wabtec and GE Transportation is not intended to reflect what actual results of operations and financial condition would have been had Wabtec and GE Transportation been a combined company for the periods presented, and therefore these results may not be indicative of Wabtec's future operating performance.

The unaudited pro forma condensed combined financial information as of, and for the year ended, December 31, 2018, which is incorporated by reference in this prospectus supplement, is for illustrative purposes only and is not intended to, and does not purport to, represent what Wabtec's actual results or financial condition would have been if the GET transactions had occurred on the relevant date. In addition, such unaudited pro forma condensed combined financial information is based in part on certain assumptions regarding the GET transactions that Wabtec believes are reasonable, but that may not prove to be accurate. These assumptions, including with respect to purchase price allocations, are preliminary and remain subject to updating in connection with our integration activities.

The unaudited pro forma condensed combined financial information does not reflect the costs of any integration activities or transaction-related costs or incremental capital spending that Wabtec management believes are necessary to realize the anticipated synergies from the GET transactions. Accordingly, the pro forma financial information incorporated by reference in this prospectus supplement does not reflect what Wabtec's results of operations or operating condition would have been had Wabtec and GE Transportation been a consolidated entity during all periods presented, or what Wabtec's results of operations and financial condition will be in the future.

In addition, this prospectus supplement includes supplemental unaudited pro forma financial information for the three months ended March 31, 2019. This supplemental unaudited pro forma financial information is subject to the risks described above. In addition, this supplemental unaudited pro forma financial information has not been prepared in accordance with Article 11 of Regulation S-X. Accordingly, this supplemental unaudited pro forma financial information does not give effect to the pro forma adjustments that might be required in connection with the preparation of pro forma financial information in accordance with Article 11 of Regulation S-X. As a result, the supplemental unaudited pro forma financial information presented here could materially differ from those determined in accordance with Article 11 of Regulation S-X. This supplemental unaudited pro forma financial information is for illustrative purposes only and is not intended to, and does not purport to, represent what Wabtec's actual results or financial condition would have been if the GET transaction had not occurred on the relevant date.

Sales of our Common Stock (including Common Stock issuable upon the conversion of Series A Preferred Stock) by the selling stockholder in this offering and in future offerings may negatively affect the market price of our Common Stock.

We have filed a registration statement with the SEC registering shares of our Common Stock and Series A Preferred Stock under the Securities Act for resale by the selling stockholder. The market price of our Common Stock could decline as a result of future sales of a large number of shares of our Common Stock pursuant to the shelf registration statement or otherwise, or the perception that such sales could occur, among other factors. These sales, or the possibility that these sales may occur, also might make it more difficult for us to sell equity securities in the future at a time and price that we deem appropriate. Additionally, the market price of our Common Stock could fluctuate significantly, as it has done in the past, and you may not be able to resell your shares at or above the purchase price.

Although these required sales have been publicly disclosed, future sales by GE of a substantial number of shares could reduce the market price of our Common Stock. The foregoing description of the Shareholders Agreement is qualified in its entirety by reference to the full text of the Shareholders Agreement. See "Prospectus Supplement Summary—The Combination with GE Transportation" and "Where You Can Find More Information."

USE OF PROCEEDS

All of the securities offered by this prospectus supplement are being sold by the selling stockholder. Accordingly, we will not receive any proceeds from the sale of these shares.

SELLING STOCKHOLDER

We have prepared the following table based on information given to us by, or on behalf of, the selling stockholder on or before the date hereof with respect to the beneficial ownership of the shares of our Common Stock and Series A Preferred Stock held by the selling stockholder as of May 1, 2019, determined in accordance with Rule 13d-3 under the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Under such rule, beneficial ownership includes any shares over which the selling stockholder has sole or shared voting power or investment power and also any shares that the selling stockholder has the right to acquire within 60 days of such date through the exercise of any options, warrants or other rights. Except as otherwise indicated, we believe that the selling stockholder has sole voting and investment power with respect to all shares of Common Stock and Series A Preferred Stock shown as beneficially owned by it. The beneficial ownership information presented in this table is not necessarily indicative of beneficial ownership for any other purpose. We have not independently verified this information.

In the table below, the percentage of shares beneficially owned is based on 10,000 shares of our Series A Preferred Stock outstanding and 162,817,600 shares of our Common Stock outstanding as of March 31, 2019 (resulting in a total of 191,633,064 shares of Common Stock on an as-converted basis).

CERTAIN U.S. FEDERAL INCOME TAX CONSIDERATIONS FOR NON-U.S. HOLDERS

The following is a general discussion of certain U.S. federal income tax considerations related to the acquisition, ownership and disposition of our Common Stock by a non-U.S. holder, as defined below, that acquires our Common Stock pursuant to this offering. As described in this prospectus supplement and the accompanying prospectus, the shares offered hereby include shares of Common Stock issuable upon the conversion of shares of Series A Preferred Stock. All purchasers will receive shares of Common Stock at settlement. As participants in this offering cannot directly hold or acquire Series A Preferred Stock, the discussion below addresses only U.S. federal income tax consequences relevant to our Common Stock.

This discussion is based on the current provisions of the Internal Revenue Code of 1986, as amended (the “Code”), applicable Treasury Regulations promulgated thereunder, judicial opinions and published rulings of the IRS, all as in effect on the date of this prospectus supplement and all of which are subject to change or differing interpretations, possibly with retroactive effect, which may result in tax consequences different from those discussed below. We have not sought, and will not seek, any ruling from the Internal Revenue Services (the “IRS”) with respect to the tax considerations discussed herein, and there can be no assurance that the IRS will not take a position contrary to those discussed below or that any position taken by the IRS will not be sustained by a court.

This discussion does not address all aspects of U.S. federal income taxation that may be relevant to a particular investor in light of the investor’s individual circumstances. In addition, this discussion does not address (i) estate and gift and other non-income tax laws, (ii) state, local or non-U.S. tax considerations, (iii) the special tax rules that may apply to certain investors, including, without limitation, banks or other financial institutions, insurance companies, controlled foreign corporations, passive foreign investment companies, broker-dealers or traders in securities, grantor trusts, personal holding companies, taxpayers who have elected mark-to-market accounting, tax-exempt entities, pension plans, pass-through entities (such as subchapter S corporations) or any investors in such entities, or U.S. expatriates or former long-term residents of the United States, (iv) the special tax rules that may apply to an investor that acquires, holds or disposes of our Common Stock as part of a straddle, hedge, constructive sale, conversion or other integrated transaction, or (v) the effect, if any, of the alternative minimum tax. This discussion assumes that a non-U.S. holder will hold shares of our Common Stock acquired pursuant to this offering as a capital asset within the meaning of Section 1221 of the Code (generally, property held for investment).

For purposes of this discussion, a “non-U.S. holder” means a beneficial owner of our Common Stock that is, for U.S. federal income tax purposes, an individual, corporation, estate or trust that is not a U.S. person; and a “U.S. person” is any person or entity that, for U.S. federal income tax purposes, is: (i) an individual citizen or resident of the United States; (ii) a corporation (including any entity treated as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the United States, any state thereof or the District of Columbia; (iii) an estate the income of which is subject to U.S. federal income taxation regardless of its source; or (iv) a trust if (a) its administration is subject to the primary supervision of a court within the United States and one or more U.S. persons, within the meaning of Section 7701(a)(30) of the Code, have the authority to control all substantial decisions of the trust or (b) it has a valid election in effect under applicable Treasury Regulations to be treated as a U.S. person for U.S. federal income tax purposes.

The tax treatment of an entity or arrangement treated as a partnership for U.S. federal income tax purposes and each partner thereof will generally depend upon the status and activities of the partnership and such partner. An investor that is treated as a partnership for U.S. federal income tax purposes or a partner in such partnership should consult its own tax advisor regarding the U.S. federal income tax considerations applicable to the partnership’s acquisition, ownership and disposition of our Common Stock.

EACH PROSPECTIVE INVESTOR SHOULD CONSULT ITS OWN TAX ADVISOR WITH RESPECT TO THE PARTICULAR TAX CONSIDERATIONS RELATED TO THE ACQUISITION, OWNERSHIP AND DISPOSITION OF OUR COMMON STOCK, INCLUDING THE APPLICABILITY AND EFFECT OF ANY STATE, LOCAL AND NON-U.S. TAX LAWS, AS WELL AS U.S. FEDERAL ESTATE AND GIFT AND OTHER NON-INCOME TAX LAWS AND ANY APPLICABLE TAX TREATY.

Distributions on Common Stock

If we pay cash or distribute property (other than certain distributions of stock) to non-U.S. holders of our Common Stock, such distributions generally will constitute dividends for U.S. federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. Distributions in excess of current and accumulated earnings and profits will constitute a return of capital that will be applied against and reduce (but not below zero) the non-U.S. holder’s adjusted tax basis in

our Common Stock. Any remaining excess amount of such distribution once a non-U.S. holder's tax basis in our Common Stock has been reduced to zero will be treated as gain from the sale or exchange of our Common Stock. For a further discussion of the treatment of gain from the sale or exchange of our Common Stock and distributions treated as a return of capital, see "—Gain on Sale, Exchange or Other Taxable Disposition of Common Stock" below.

Subject to the discussions below, including under "—Information Reporting and Backup Withholding" and "—FATCA Withholding," dividends paid to a non-U.S. holder that are not effectively connected with the non-U.S. holder's conduct of a trade or business in the United States generally will be subject to withholding of U.S. federal income tax at a rate of 30% or such lower rate as may be specified by an applicable income tax treaty. A non-U.S. holder that wishes to claim the benefit of a reduced withholding rate under an applicable income tax treaty generally will be required to submit a properly completed IRS Form W-8BEN or IRS Form W-8BEN-E (or appropriate successor form), as applicable, and certify under penalties of perjury that such non-U.S. holder is not a United States person and is eligible for the benefits of the applicable tax treaty. These forms may need to be periodically updated. If a non-U.S. holder holds our Common Stock through a financial institution or other intermediary, such non-U.S. holder generally will be required to provide the appropriate documentation to the financial institution or other intermediary.

A non-U.S. holder eligible for a reduced rate of withholding of U.S. federal income tax pursuant to an income tax treaty may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS. Non-U.S. holders should consult their own tax advisors regarding their entitlement to benefits under an applicable income tax treaty and the manner of claiming the benefits of such treaty (including, without limitation, the need to obtain a U.S. taxpayer identification number).

Dividends that are effectively connected with a non-U.S. holder's conduct of a trade or business in the United States (and, if required by an applicable income tax treaty, attributable to a permanent establishment or fixed base maintained by the non-U.S. holder in the United States) generally are exempt from U.S. federal withholding tax. In order to obtain this exemption, a non-U.S. holder must provide a properly completed IRS Form W-8ECI (or appropriate successor form) certifying such exemption. Such effectively connected dividends, although not subject to U.S. federal withholding tax, are subject to U.S. federal income tax on a net income basis at the regular graduated U.S. federal income tax rates generally applicable to the income of a United States person. Dividends received by a corporate non-U.S. holder that are effectively connected with such non-U.S. holder's conduct of a trade or business in the United States (and, if required by an applicable income tax treaty, attributable to a permanent establishment or fixed base maintained by the non-U.S. holder in the United States) may be subject to an additional branch profits tax at a 30% rate (or such lower rate as may be specified by an applicable income tax treaty).

Gain on Sale, Exchange or Other Taxable Disposition of Common Stock

Subject to the discussions below, including under "—Information Reporting and Backup Withholding" and "—FATCA Withholding," any gain realized by a non-U.S. holder on a sale, exchange or other taxable disposition of our Common Stock generally will not be subject to U.S. federal income or withholding tax, unless:

- the gain is effectively connected with the conduct of a trade or business of the non-U.S. holder in the United States (and, if required by an applicable income tax treaty, is attributable to a permanent establishment or fixed base maintained by the non-U.S. holder in the United States),
- the non-U.S. holder is an individual who is present in the United States for 183 days or more in the taxable year of such disposition, and certain other conditions are met, or
- we are or have been a United States real property holding corporation for U.S. federal income tax purposes (a "USRPHC") at any time during the shorter of the five-year period ending on the date of disposition and the period that the non-U.S. holder held our Common Stock, the non-U.S. holder is not eligible for an exemption under an applicable income tax treaty and either (i) our Common Stock ceases to be regularly traded on an established securities market or (ii) such non-U.S. holder held more than 5% of our Common Stock at any time during the relevant period (as described below).

Gain that is described in the first bullet point above generally will be subject to U.S. federal income tax at the regular graduated U.S. federal income tax rates generally applicable to the income of a United States person. A non-U.S. holder that is a corporation also may be subject to a branch profits tax on such gain at a rate of 30% (or such lower rate specified by an applicable income tax treaty).

TABLE OF CONTENTS

A non-U.S. holder described in the second bullet point above generally will be subject to U.S. federal income tax at a rate of 30% (or such lower rate specified by an applicable income tax treaty) on any gain derived from the sale, exchange or other taxable disposition, which may be offset by certain U.S.-source capital losses of the non-U.S. holder.

With respect to the third bullet point above, a U.S. corporation generally is a USRPHC if the fair market value of its U.S. real property interests equals or exceeds 50% of the sum of the fair market value of its worldwide real property interests and its other assets used or held for use in a trade or business. We believe that we are not currently, and will not become, a USRPHC. If we are or become a USRPHC, subject to the next sentence, a non-U.S. holder generally will be taxed on gain recognized on the sale, exchange or other taxable disposition of our Common Stock in the same manner as if such non-U.S. holder were a United States person (subject to an applicable income tax treaty providing otherwise), and a 15% withholding tax will apply to the gross proceeds from the sale, exchange or other taxable disposition of our Common Stock. However, if and so long as our Common Stock continues to be “regularly traded on an established securities market,” as defined by applicable Treasury Regulations, the 15% withholding tax on gross proceeds will not apply, and a non-U.S. holder generally will not be subject to U.S. federal income tax with respect to such gain as a result of our current or former status as a USRPHC if such non-U.S. holder held, directly or constructively (by application of certain attribution rules), at all times during the shorter of the five-year period ending on the date of disposition or the non-U.S. holder’s holding period for our Common Stock, 5% or less of our Common Stock.

Non-U.S. holders are urged to consult their own tax advisors regarding these rules as well as the potential applicability of any income tax treaty in their particular circumstances.

Information Reporting and Backup Withholding

The amount of dividends paid to a non-U.S. holder on our Common Stock and the tax, if any, withheld with respect to those dividends generally must be reported annually to the IRS and to such non-U.S. holder of our Common Stock. Copies of the information returns reporting those dividends and withholding may also be made available to the tax authorities in the country in which such non-U.S. holder is a resident under the provisions of an applicable income tax treaty or agreement. Information reporting also is generally required with respect to the proceeds from sales and other dispositions of our Common Stock to or through the U.S. office (and in certain cases, the foreign office) of a broker, unless the non-U.S. holder establishes that it is not a United States person.

Under some circumstances, Treasury Regulations require U.S. federal backup withholding, currently at a rate of 24%, on reportable payments with respect to our Common Stock. A non-U.S. holder generally may eliminate the requirement for U.S. federal backup withholding by providing certification of its foreign status, under penalties of perjury, on a duly executed applicable IRS Form W-8BEN or IRS Form W-8BEN-E (or appropriate successor form) or by otherwise establishing an exemption. Notwithstanding the foregoing, U.S. federal backup withholding may apply if the payor has actual knowledge, or reason to know, that the non-U.S. holder is a United States person. Backup withholding is not an additional tax. Rather, the amount of any U.S. federal backup withholding generally will be allowed as a credit against the non-U.S. holder’s U.S. federal income tax liability, if any, and may entitle such non-U.S. holder to a refund, provided that certain required information is timely furnished to the IRS. Non-U.S. holders are urged to consult their own tax advisors regarding the application of backup withholding and the availability of and procedure for obtaining an exemption from backup withholding in their particular circumstances.

FATCA Withholding

Sections 1471-1474 of the Code and the Treasury Regulations promulgated thereunder, commonly referred to as “FATCA,” impose a 30% U.S. federal withholding tax on certain types of payments, including U.S.-source dividends, made to (i) “foreign financial institutions,” unless they agree to collect and disclose to the IRS information regarding their direct and indirect U.S. account holders, or are otherwise eligible for an exemption, and (ii) certain non-financial foreign entities, unless they certify certain information regarding their direct and indirect U.S. owners, or otherwise establish an exemption. Foreign financial institutions located in jurisdictions that have an intergovernmental agreement with the United States governing FATCA may be subject to different rules. Non-U.S. holders are urged to consult their own tax advisors regarding FATCA and the application of these requirements to any investment in our Common Stock.

In addition, FATCA may impose a 30% withholding tax on payments of gross proceeds from the sale, exchange or redemption of property, such as stock, that gives rise to U.S.-source dividends. The IRS has issued Proposed Treasury Regulations that eliminate withholding on payments of gross proceeds (but not on payments of dividends). Pursuant to the Proposed Regulations, the issuer and any withholding agent may (but are not required to) rely on this proposed change to FATCA withholding until the final regulations are issued.

[TABLE OF CONTENTS](#)

We will not pay any additional amounts to non-U.S. holders with respect to any amounts withheld, including pursuant to FATCA.

The discussion of U.S. federal income tax considerations set forth above is included for general information only and is not tax advice. Prospective investors are urged to consult their own tax advisors with respect to the particular U.S. federal income tax consequences to them of the acquisition, ownership and disposition of our Common Stock and the application of any state, local and non-U.S. tax laws and U.S. federal estate and gift and other non-income tax laws, as well as the possible effects of any applicable tax treaty or changes in applicable tax laws.

The underwriters and the representatives are collectively referred to as the “underwriters” and the “representatives,” respectively. The underwriters are offering the shares of Common Stock upon conversion of the shares of Series A Preferred Stock received from the selling stockholder, subject to prior sale and subject to the underwriters’ right to reject any order in whole or in part. The underwriting agreement provides that the obligations of the several underwriters to pay for and accept delivery of the shares of Common Stock issuable upon the conversion of the shares of Series A Preferred Stock offered by this prospectus supplement are subject to the approval of certain legal matters by their counsel and to certain other conditions. The underwriters are obligated to take and pay for all of the shares of Common Stock issuable upon the conversion of the shares of Series A Preferred Stock offered by this prospectus supplement if any such shares are taken. However, the underwriters are not required to take or pay for such shares covered by the underwriters’ option to purchase additional shares described below.

The underwriters initially propose to offer part of the shares of Common Stock directly to the public at the offering price listed on the cover page of this prospectus supplement and part to certain dealers at a price that represents a concession not in excess of \$1.43325 per share under the public offering price. After the initial offering of the shares of Common Stock, the offering price and other selling terms may from time to time be varied by the representative.

The selling stockholder has granted to the underwriters an option, exercisable for 30 days from the date of this prospectus supplement, to purchase up to an additional 3,300,000 shares of Common Stock (issuable upon conversion of approximately 1,145.2184 additional shares of Series A Preferred Stock) at the public offering price listed on the cover page of this prospectus supplement, less underwriting discounts and commissions. To the extent the option is exercised, each underwriter will become obligated, subject to certain conditions, to purchase about the same percentage of the additional shares of Common Stock (issuable upon the conversion of additional shares of Series A Preferred Stock) as the number listed next to the underwriter’s name in the preceding table bears to the total number of shares of Common Stock listed next to the names of all underwriters in the preceding table.

TABLE OF CONTENTS

The following table shows the per share and total public offering price, underwriting discounts and commissions, and proceeds before expenses to the selling stockholder. These amounts are shown assuming both no exercise and full exercise of the underwriters' option to purchase up to an additional 3,300,000 shares of Common Stock (issuable upon conversion of approximately 1,145.2184 additional shares of Series A Preferred Stock).

	Per Share of Common Stock	Total	
		No Exercise	Full Exercise
Public offering price	\$ 73.50	\$ 1,617,000,000	\$ 1,859,550,000
Underwriting discounts and commissions to be paid by the selling stockholder:	\$ 2.38875	\$ 52,552,500	\$ 60,435,375
Proceeds, before expenses, to selling stockholder	\$ 71.11125	\$ 1,564,447,500	\$ 1,799,114,625

The estimated offering expenses payable by the selling stockholder, exclusive of the underwriting discounts and commissions, are approximately \$500,000.

Our Common Stock has been approved for listing on the New York Stock Exchange under the trading symbol "WAB".

In addition, the selling stockholder has agreed that, without the prior written consent of the representatives on behalf of the underwriters, it will not, during the period ending 180 days after the date of this prospectus supplement (the "selling stockholder restricted period"):

- offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, lend or otherwise transfer or dispose of, directly or indirectly, any shares of Common Stock or any securities convertible into or exercisable or exchangeable for shares of Common Stock;

whether any such transaction described above is to be settled by delivery of Common Stock or such other securities, in cash or otherwise.

TABLE OF CONTENTS

The restrictions described in the immediately preceding paragraph to do not apply to:

- the sale of shares to the underwriters;
- the issuance by the Company of shares of Common Stock issuable upon conversion of shares of Series A Preferred Stock sold in this offering;
- transfers of shares to certain permitted transferees of the selling stockholder, provided that the restrictions described above shall apply to any such transferee and no filing under Section 16(a) of the Exchange Act is required or voluntarily made during the selling shareholder restricted period in connection with subsequent sales of Common Stock or other securities acquired in such transfers;
- transactions by the selling stockholder relating to shares of Common Stock or other securities acquired in open market transactions after the completion of the offering of the shares; provided that no filing under Section 16(a) of the Exchange Act is required or voluntarily made in connection with subsequent sales of the Common Stock or other securities acquired in such open market transactions;
- transfer, sale, tender or other disposition of shares of Common Stock pursuant to a bona fide third party tender offer, exchange offer or merger or other similar business combination transaction effected by or involving the Company, provided that any shares of Common Stock or other securities that are not so transferred, sold, tendered or otherwise disposed of shall remain subject to the restrictions described above; or
- transfers of shares of Common Stock or such other securities under certain “piggyback” registration rights pursuant to the Shareholders Agreement between Wabtec and GE dated February 25, 2019.

The representatives, in their sole discretion, may release the Common Stock and other securities subject to the lock-up agreements described above in whole or in part at any time.

In order to facilitate the offering of the Common Stock, the underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of the Common Stock. Specifically, the underwriters may sell more shares than they are obligated to purchase under the underwriting agreement, creating a short position. A short sale is covered if the short position is no greater than the number of shares available for purchase by the underwriters under the option. The underwriters can close out a covered short sale by exercising the option or purchasing shares in the open market. In determining the source of shares to close out a covered short sale, the underwriters will consider, among other things, the open market price of shares compared to the price available under the option. The underwriters may also sell shares in excess of the option, creating a naked short position. The underwriters must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the Common Stock in the open market after pricing that could adversely affect investors who purchase in this offering. As an additional means of facilitating this offering, the underwriters may bid for, and purchase, shares of Common Stock in the open market to stabilize the price of the Common Stock. These activities may raise or maintain the market price of the Common Stock above independent market levels or prevent or retard a decline in the market price of the Common Stock. The underwriters are not required to engage in these activities and may end any of these activities at any time.

We, the selling stockholder and the underwriters have agreed to indemnify each other against certain liabilities, including liabilities under the Securities Act.

A prospectus supplement in electronic format may be made available on websites maintained by one or more underwriters, or selling group members, if any, participating in this offering. The representatives may agree to allocate a number of shares of Common Stock to underwriters for sale to their online brokerage account holders. Internet distributions will be allocated by the representatives to underwriters that may make Internet distributions on the same basis as other allocations.

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. Certain of the underwriters and their respective affiliates have, from time to time, performed, and may in the future perform, various financial advisory and investment banking services for us and GE, for which they received or will receive customary fees and expenses.

TABLE OF CONTENTS

In addition, in the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers and may at any time hold long and short positions in such securities and instruments. Such investment and securities activities may involve our securities and instruments. The underwriters and their respective affiliates may also make investment recommendations or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long or short positions in such securities and instruments.

PROSPECTUS SUMMARY

This summary highlights selected information contained elsewhere in, or incorporated by reference into, this prospectus. You should read this entire prospectus carefully, including the section entitled "Risk Factors" and the documents that we incorporate by reference into this prospectus, before making an investment decision.

The Company

Wabtec is one of the world's largest providers of value-added, technology-based equipment, systems and services for the global passenger transit and freight rail industries. We believe we hold a leading market share for many of our core product lines globally. Our highly engineered products, which are intended to enhance safety, improve productivity and reduce maintenance costs for customers, can be found on most locomotives, freight cars, passenger transit cars and buses around the world. We provide our products and services through two principal business segments, the Transit Segment and the Freight Segment.

The Transit Segment primarily manufactures and services components for new and existing passenger transit vehicles, typically regional trains, high speed trains, subway cars, light-rail vehicles and buses; supplies rail control and infrastructure products including electronics, positive train control equipment, and signal design and engineering services; builds new commuter locomotives; and refurbishes passenger transit vehicles. Customers include public transit authorities and municipalities, leasing companies and manufacturers of passenger transit vehicles and buses around the world. Demand in the transit market is primarily driven by general economic conditions, passenger ridership levels, government spending on public transportation and investment in new rolling stock.

The Freight Segment primarily manufactures and services components for new and existing locomotives and freight cars; supplies rail control and infrastructure products including electronics, positive train control equipment and signal design and engineering services; overhauls locomotives; and provides heat exchangers and cooling systems for rail and other industrial markets. Customers include large, publicly traded railroads, leasing companies, manufacturers of original equipment such as locomotives and freight cars and utilities. Demand is primarily driven by general economic conditions and industrial activity; traffic volumes, as measured by freight carloadings; investment in new technologies; and deliveries of new locomotives and freight cars.

RISK FACTORS

An investment in our Common Stock involves risks. These risks are not the only ones we will face. The risks and uncertainties that we discuss in any document incorporated by reference in this prospectus are those that we believed as of the date of the document to be risks which may materially affect our company. USE OF PROCEEDS

The selling stockholder may make offers and sales pursuant to this prospectus and any applicable prospectus supplement. We will not receive any proceeds from the sale or other disposition by the selling stockholder of the shares covered hereby.

SELLING STOCKHOLDER

Pursuant to this prospectus and any applicable prospectus supplement, the selling stockholder is offering for resale up to 47,833,671 shares of Common Stock (of which, 28,815,464 shares will be issuable upon the sale and immediate conversion of Series A Preferred Stock (or fractional interests therein)). The securities being offered were issued to the selling stockholder in connection with the GET transactions. The selling stockholder may from time to time offer and sell pursuant to this prospectus any or all of the shares of Common Stock and Series A Preferred Stock being registered.

We are registering the shares of Common Stock and Series A Preferred Stock being offered hereby pursuant to our obligations to do so under a Shareholders Agreement (the “Shareholders Agreement”), dated as of February 25, 2019, by and among Wabtec and GE. The Shareholders Agreement was entered into in connection with the GET transactions.

To our knowledge, except as may be disclosed in a prospectus supplement, the selling stockholder has not, and within the past three years has not had, any position, office or other material relationship with us or any of our affiliates, except that GE (i) entered into agreements with us in connection with our combination with GE Transportation and (ii) has or had commercial arrangements with us in the ordinary course of business.

We have prepared the following table based on information given to us by, or on behalf of, the selling stockholder on or before the date hereof with respect to the beneficial ownership of the shares of our Common Stock and Series A Preferred Stock held by the selling stockholder as of April 26, 2019, determined in accordance with Rule 13d-3 under the Exchange Act. Under such rule, beneficial ownership includes any shares over which the selling stockholder has sole or shared voting power or investment power and also any shares that the selling stockholder has the right to acquire within 60 days of such date through the exercise of any options, warrants or other rights. Except as otherwise indicated, we believe that the selling stockholder has sole voting and investment power with respect to all shares of Common Stock and Series A Preferred Stock shown as beneficially owned by it. The beneficial ownership information presented in this table is not necessarily indicative of beneficial ownership for any other purpose. We have not independently verified this information.

Because the selling stockholder may sell, transfer or otherwise dispose of all, some or none of the shares of our Common Stock or Series A Preferred Stock covered by this prospectus, we cannot determine the number of such shares that will be sold, transferred or otherwise disposed of by the selling stockholder, or the amount or percentage of shares of our Common Stock or Series A Preferred Stock that will be held by the selling stockholder upon termination of any particular offering. See the section of this prospectus captioned “Plan of Distribution” for additional information. For purposes of the “After the Offering” columns in the table below, we assume that the selling stockholder will sell all of its shares of Common Stock and Series A Preferred Stock covered by this prospectus.

In the table below, the percentage of shares beneficially owned is based on 10,000 shares of our Series A Preferred Stock outstanding and 162,817,600 shares of our Common Stock outstanding as of March 31, 2019 (resulting in a total of 191,633,064 shares of Common Stock on an as-converted basis).

If the selling stockholder effects such transactions by selling shares of Common Stock or Series A Preferred Stock offered hereby to or through broker-dealers or agents, such broker-dealers or agents may receive commissions in the form of discounts, concessions or commissions from the selling stockholder or commissions from purchasers of the shares of Common Stock or Series A Preferred Stock offered hereby for whom they may act as agent or to whom they may sell as principal. In connection with sales of the shares of Common Stock offered hereby or otherwise, the selling stockholder may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the shares of Common Stock offered hereby in the course of hedging in positions they assume. The selling stockholder may also sell shares of Common Stock offered hereby short and deliver shares of Common Stock covered by this prospectus to close out short positions and to return borrowed shares in connection with such short sales. The selling stockholder may also loan or pledge shares of Common Stock offered hereby to broker-dealers that in turn may sell such shares.

In addition, if the selling stockholder effects any such transactions set forth above by selling shares of Series A Preferred Stock, the shares of Series A Preferred Stock will not be transferred directly to purchasers thereof; such shares of Series A Preferred Stock will instead be received by the conversion agent for the benefit of the purchasers thereof and such purchasers will receive shares of Common Stock upon conversion of the Series A Preferred Stock.

The selling stockholder may pledge or grant a security interest in some or all of the shares of Common Stock and Series A Preferred Stock offered hereby and owned by it and, if it defaults in the performance of its secured obligations, the pledgees or secured parties may offer and sell such shares of Common Stock or Series A Preferred Stock from time to time pursuant to this prospectus or any amendment to this prospectus under Rule 424(b)(3) or other applicable provision of the Securities Act, amending, if necessary, the selling stockholder list to include the pledgee, transferee or other successors in interest as selling stockholders under this prospectus.

TABLE OF CONTENTS

The selling stockholder, as well as any broker-dealer participating in the distribution of the shares of Common Stock or Series A Preferred Stock offered hereby, may be deemed to be “underwriter(s)” within the meaning of the Securities Act, and any commission paid, or any discounts or concessions allowed to, any such broker-dealer may be deemed to be underwriting commissions or discounts under the Securities Act.

Any underwriter may engage in stabilizing and syndicate covering transactions in accordance with Rule 104 under the Exchange Act. Rule 104 permits stabilizing bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum. The underwriters may over-allot offered securities, thereby creating a short position in the underwriters’ account. Syndicate covering transactions involve purchases of offered securities in the open market after the distribution has been completed to cover syndicate short positions. Stabilizing and syndicate covering transactions may cause the price of the offered securities to be higher than it would otherwise be in the absence of such transactions. These transactions, if commenced, may be discontinued at any time.

At the time a particular offering of the shares of Common Stock or Series A Preferred Stock offered hereby is made, a prospectus supplement, if required, will be distributed, which will set forth the names of the selling stockholder(s), the aggregate amount of shares of Common Stock and/or Series A Preferred Stock being offered and the terms of the offering, including, to the extent required, the name or names of any broker-dealers or agents, any discounts, commissions and other terms constituting compensation from the selling stockholder and any discounts, commissions or concessions allowed or reallocated or paid to broker-dealers.

The aggregate proceeds to the selling stockholder from the sale of Common Stock and Series A Preferred Stock offered by it hereby will be the purchase price of the Common Stock or Series A Preferred Stock, as applicable, less discounts and commissions, if any. The selling stockholder reserves the right to accept and, together with its agents from time to time, to reject, in whole or in part, any proposed purchase of Common Stock or Series A Preferred Stock to be made directly or through agents. We will not receive any of the proceeds from this offering.

Under the securities laws of some states, the shares of Common Stock and Series A Preferred Stock offered hereby may be sold in such states only through registered or licensed brokers or dealers. In addition, in some states the shares of Common Stock and Series A Preferred Stock offered hereby may not be sold unless such shares have been registered or qualified for sale in such state or an exemption from registration or qualification is available and is complied with.

There can be no assurance that the selling stockholder will sell any or all of the shares of Common Stock or Series A Preferred Stock registered pursuant to the registration statement of which this prospectus forms a part. Any shares covered by this prospectus which qualify for sale pursuant to Rule 144 under the Securities Act may be sold under Rule 144 rather than pursuant to this prospectus. In addition, the selling stockholder may transfer, devise or gift shares of Common Stock or Series A Preferred Stock by other means not described in this prospectus.

The selling stockholder and any other person participating in such distribution will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder, including, without limitation, Regulation M of the Exchange Act, which may limit the timing of purchases and sales of any of the shares of Common Stock and Series A Preferred Stock offered hereby by the selling stockholder and any other participating person. Regulation M may also restrict the ability of any person engaged in the distribution of the shares of Common Stock and Series A Preferred Stock offered hereby to engage in market-making activities with respect to the shares of Common Stock and Series A Preferred Stock offered hereby. All of the foregoing may affect the marketability of the shares of Common Stock and Series A Preferred Stock offered hereby and the ability of any person or entity to engage in market-making activities with respect to the shares of Common Stock and Series A Preferred Stock offered hereby.

The selling stockholder has agreed to pay all fees and expenses incurred in connection with this registration pursuant to the Shareholders Agreement, including all registration and filing fees, printing and delivery expenses, fees and disbursements of counsel for the selling stockholder and all underwriting discounts, selling commissions and transfer taxes applicable to the sale of the securities offered hereby; *provided, however*, that we will be responsible for our internal expenses (including all salaries and expenses of our officers and employees performing legal or accounting duties), the expenses of any annual audit or quarterly review, the expenses and fees, if applicable, for listing the securities offered hereby on a securities exchange and the fees and

disbursements of our counsel and all independent certified public accounts and other persons retained by us. We have agreed to indemnify the selling stockholder against certain losses, claims, damages, liabilities, costs, expenses (including reasonable expenses of investigation and reasonable attorneys' fees and expenses), judgments, fines, penalties, charges and amounts paid in settlement (collectively, the "Losses"), including liabilities under the Securities Act. Pursuant to the Shareholders Agreement, and to the extent permitted by applicable law, we may be indemnified by the selling stockholder against Losses, including liabilities under the Securities Act, that may arise from written information furnished to us by the selling stockholder specifically for use in the registration statement of which this prospectus forms a part. To the extent permitted by applicable law, the selling stockholder may indemnify any broker-dealer that participates in transactions involving the sale of shares of Common Stock or Series A Preferred Stock against certain liabilities, including liabilities under the Securities Act.

Subject to certain terms and conditions of the Shareholders Agreement, we may restrict or suspend for certain periods of time offers and sales or other dispositions of the shares of Common Stock and Series A Preferred Stock under the registration statement of which this prospectus forms a part. In the event of such restriction or suspension, the selling stockholder will not be able to offer or sell or otherwise dispose of the shares of Common Stock or Series A Preferred Stock under the registration statement during such period.

Dividends and Distributions. If Wabtec declares or makes any dividend or distribution on Common Stock (including, without limitation, any distribution of cash, stock or other securities, property or rights, options or warrants by way of a dividend, distribution, spin-off, reclassification or other similar transaction, but excluding any dividend or distribution consisting solely of shares of Common Stock), holders of Series A Preferred Stock will be entitled to receive such dividend or distribution at the same time as, and on a *pro rata*, as converted, basis with, holders of the Common Stock. For each share of Series A Preferred Stock held, the holder will receive the same dividend or distribution as if such holder held a number of shares of Common Stock equal to the Conversion Rate (as defined below) as in effect on the record date for such dividend or distribution.

Terms of Conversion. Each share (or fractional interest therein) of Series A Preferred stock will automatically convert, at the Conversion Rate (as defined below), into the right to receive Common Stock upon the (1) sale or other transfer (excluding any bona fide pledge) of such share (or fractional interest therein) to a third party that is not an affiliate of GE, (2) distribution of such share (or fractional interest therein) as part of a *pro rata* distribution of shares of Series A Preferred Stock to the holders of GE's common stock or (3) exchange of such share (or fractional interest therein) as part of an exchange offer with the holders of GE's common stock by GE for the Series A Preferred Stock (each, a "Conversion Event"). Shares (or fractional interests therein) of Series A Preferred Stock are not convertible into Common Stock at any time at which they are beneficially owned by GE or its subsidiaries. Upon the acquisition of beneficial ownership of a share (or fractional interest therein) of Series A Preferred Stock by a purchaser, transferee or recipient in a Conversion Event, such share (or fractional interest therein) of Series A Preferred Stock will automatically convert into the right to receive Common Stock at a "Conversion Rate" equal to 2,881.5464 shares of Common Stock for each share of Series A Preferred Stock (subject to proportional adjustment in the event of any share split or combination of the Common Stock or any issuance of Common Stock as a dividend or distribution on the Common Stock). Shares of Series A Preferred Stock will not be transferred directly to purchasers thereof; such shares of Series A Preferred Stock will instead be received by the conversion agent for the benefit of the purchasers thereof and such purchasers will receive shares of Common Stock upon conversion of the Series A Preferred Stock. No fractional shares of Common Stock will be issued upon the conversion of any shares of Series A Preferred Stock, and any such fractional shares to which the purchaser, transferee or recipient would otherwise be entitled to receive will be aggregated by the conversion agent and the whole shares obtained thereby will be sold on the open market, with the net proceeds thereof to be made available on a *pro rata* basis.

Certain Covenants: Wabtec may not consummate a binding share exchange or reclassification involving the Series A Preferred Stock or merge or consolidate with any other person unless the Series A Preferred Stock either remains outstanding or is exchanged for equivalent securities of the surviving or acquiring company and, in each case, the Series A Preferred Stock or such equivalent securities have such rights, preferences, privileges and powers, taken as a whole, as are not materially less favorable to the holders thereof than the rights, preferences, privileges and powers of the Series A Preferred Stock immediately prior to such consummation, taken as a whole. Each holder of Series A Preferred Stock is entitled to (i) participate in any tender or exchange offer for
