Wabtec Reports Record Quarterly Results and Increases Guidance Excluding Special Items; Backlog Increases To Record \$1.51 Billion

WILMERDING, PA, July 26, 2011 – Wabtec Corporation (NYSE: WAB) today reported record quarterly results and increased its full-year guidance excluding special items, mainly a previously announced charge for a court ruling that Wabtec is planning to appeal. Second quarter highlights included:

- Sales were a record \$479 million, 28 percent higher than the year-ago quarter, primarily due to strong growth in the Freight Group.
- Earnings per diluted share were 75 cents. Excluding special items, earnings per diluted share were a record 94 cents (non-GAAP), 45 percent higher than the year-ago quarter. The special items were: the charge of \$18.1 million for a court ruling (after-tax EPS effect of 25 cents), a benefit of \$2.4 million from a settlement related to a prior acquisition (after-tax EPS effect of 3 cents), and a tax benefit of \$1.7 million from the successful resolution of certain outstanding tax issues from prior years (after-tax EPS effect of 3 cents). For reconciliation with GAAP, see the table below.
- Income from operations was \$56 million. Excluding the special items, income from operations was a record \$72 million (non-GAAP), or 15 percent of sales, compared to 13.3 percent in the year-ago quarter. For reconciliation with GAAP, see the table below.
- For the quarter, cash from operations was \$50 million. At June 30, 2011, the company had cash of \$221 million and debt of \$396 million. During the quarter, Wabtec repurchased 95,000 shares of company stock for \$6 million and completed the acquisition of a transit aftermarket parts business.
- Backlog at the end of the second quarter was a record \$1.51 billion, 40 percent higher than at year-end 2010.

Based on its second quarter results and outlook for the rest of the year, Wabtec increased its 2011 guidance for earnings per diluted share to between \$3.45-\$3.55 excluding the special items in this quarter, with revenues expected to be up about 20 percent for the year.

Albert J. Neupaver, Wabtec's president and chief executive officer, said: "The company's second quarter operating performance was strong, as we continued to execute our growth strategies and benefited from favorable market conditions, particularly in the freight rail sector. Based on our performance to date and our record backlog, we are optimistic about our outlook for the balance of the year. Longer-term, we are well positioned to take advantage of growth opportunities in our core markets around the world."

This release contains forward-looking statements, such as statements regarding the company's expectations about future earnings. Actual results could differ materially from the results suggested in any forward-looking statement. Factors that could cause or contribute to these material differences include, but are not limited to, an economic slowdown in the markets we serve; a decrease in freight or passenger rail traffic; an increase in manufacturing costs; and other factors contained in the company's filings with the Securities and Exchange Commission. The company assumes no obligation to update these statements or advise of changes in the assumptions on which they are based.

Set forth below is the calculation of the non-GAAP performance measures included in this press release. We believe that these measures provide useful supplemental information to assess our operating performance and to evaluate period-to-period comparisons. Non-GAAP financial measures should be viewed in addition to, and not as an alternative for, Wabtec's reported results prepared in accordance with GAAP.
